

Energy performance of buildings. Recast

2008/0223(COD) - 28/04/2010

The Committee on Industry, Research and Energy adopted the recommendation for second reading contained in the report by Silvia-Adriana ICU (S&D, RO) on the Council's position at first reading for adopting a directive of the European Parliament and of the Council on the energy performance of buildings (recast).

The committee recommends that the European Parliament approve the Council's position.

To recall, the common position is based on the political agreement reached in November 2009 between the European Parliament and the Council on the technical aspects of the legislative proposal.
