

Conservation of fishery resources: prohibition of highgrading and restrictions on fishing for flounder and turbot in the Baltic Sea, the Belts and the Sound

2010/0175(COD) - 26/10/2010

The Committee on Fisheries adopted the report drafted by Marek Józef GRÓBARCZYK on the proposal for a regulation of the European Parliament and of the Council amending Council Regulation (EC) No 2187/2005 as regards the prohibition of highgrading and restrictions on fishing for flounder and turbot in the Baltic Sea, the Belts and the Sound.

It recommended that the European Parliament's position at first reading under the ordinary legislative procedure (formerly known as the codecision procedure) should be to amend the Commission's proposal to ensure that the Regulation enters into force before the end of 2010.
