Economic governance: effective enforcement of budgetary surveillance in the euro area. 'Six pack'

2010/0278(COD) - 14/02/2011

The Council held a **policy debate** on a package of measures intended to strengthen economic governance in the EU, and more specifically in the euro area, in order to address the challenges highlighted by recent difficulties on sovereign debt markets.

The package consists of:

- a draft regulation amending regulation 1466/97 on the surveillance of Member States budgetary and economic policies;
- a draft regulation amending regulation 1467/97 on the EU's excessive deficit procedure;
- a **draft regulation** on the enforcement of budgetary surveillance in the euro area;
- a draft regulation on the prevention and correction of macroeconomic imbalances;
- a draft regulation on enforcement measures to correct excessive macroeconomic imbalances in the euro area;
- a draft directive on requirements for the member states' budgetary frameworks.

Four of the propositions deal with **reform of the EU's Stability and Growth Pact**. They are aimed at enhancing the surveillance of fiscal policies, introducing provisions on national fiscal frameworks, and applying enforcement measures for non-compliant member states more consistently and at an earlier stage.

In particular, a so-called **reverse majority rule**, whereby the Commission's proposal for imposing a fine will be considered adopted unless the Council turns it down by qualified majority, will trigger the sanction more automatically than at present.

Moreover, greater emphasis will also be placed on the **debt criterion** of the Stability and Growth Pact, with member states whose debt exceeds 60% of GDP required to take steps to reduce their debt at a pre-defined pace, even if their deficit is below the 3% of GDP threshold.

The other two proposals target **macroeconomic imbalances within the EU**. Here, the aim is to broaden the surveillance of economic policies, introducing the possibility of fines on Member States found to be in an "excessive imbalances position". Risks of macroeconomic imbalances will be assessed using a "scoreboard" of economic indicators.

The Council asked the Permanent Representatives Committee to oversee further work on the package, in the light of its discussion. The presidency's aim – in accordance with the deadlines set by the European Council on 4 February – is for the Council to agree on a **general approach on all six proposals at its meeting on 15 March 2011, with a view to reaching an agreement with the European Parliament in June 2011**.

As regards the excessive deficit procedure, the Council took note of a communication from the Commission assessing action taken by **Bulgaria, Denmark, Cyprus and Finland** in order to bring their government deficits below 3% of GDP, the reference value set by the EU treaty.

It shared the Commission's view that, on the basis of current information, **all four countries have taken action representing adequate progress** towards correcting their deficits within the time limits set in its recommendations, and that no further steps under the EU's excessive deficit procedure are required at present.

Bulgaria, Denmark, Cyprus and Finland have been subject to excessive deficit procedures since July 2010, when the Council issued its recommendations. The Council called on Bulgaria and Finland to reduce their deficits below the threshold of 3 % of GDP by 2011, Cyprus by 2012 and Denmark by 2013.
