PURPOSE : The Conclusion of a Protocol on the fishing off the coast of the Cote d'Ivoire between the EEC and the Republic of Cote d'Ivoire.

PROPOSED ACT : Council Regulation.

When re-negotiating the terms of the Protocol the Joint Committee accepted the need to amend the provisions of the Protocol to take account of the new fisheries policy overall and in particular relations towards non-member countries. The new Protocol, which was initialled in Brussels on 3 March 2004, covers a period of three years from 1 July 2004 to 30 June 2007. It grants fishing opportunities on an annual basis amounting to 1 300 GT per month on average each year for demersal trawlers, for 34 tuna seiners, 11 surface longliners and 3 pole-and-line tuna vessels. The financial contribution is EUR 1 065 000 per year. In addition, both sides have agreed:

- On the need to concentrate efforts on control, monitoring and on scientific research to promote a sustainable fisheries policy.
- The setting up of a scientific committee to monitor fisheries resources. And,
- A new exclusivity clause and social clause.

The Commission proposes that the Council adopt the Protocol on the basis of a Regulation. The provisional application of the new Protocol will be based on a draft Council Decision, pending its definitive entry into force, which is the subject of a separate procedure.

## EC/Ivory Coast fisheries agreement: protocol for the period from 1st July 2004 to 30 June 2007

2004/0211(CNS) - 26/05/2005 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted a resolution drafted by Philippe MORILLON (ALDE, FR) and made some amendments to the Commission's proposal, stating that the protection of the EU's interests in the field of fisheries must be coordinated with the sustainable management of fishery resources in economic, social and environmental terms, and with the sustainable development of coastal populations dependent on fisheries. The principal amendments were as follows:

- during the final year of the Protocol's validity and before another agreement is concluded on its renewal, the Commission must submit to the European Parliament and to the Council a report on the application of the agreement and the conditions under which it was implemented;
- on the basis of this report and after consulting the European Parliament, the Council may grant the Commission a negotiating mandate with a view to the adoption of a new protocol;
- each year the Commission will forward to the European Parliament and to the Council the report on the targeted measures which the Côte d'Ivoire authorities are to supply in accordance with the protocol.
