Final act

Regulation 1996/965 OJ L 131 01.06.1996, p. 0001 Summary

Fisheries and aquaculture sector: arrangements regarding Community structural assistance (amend. Regul. 3699/93/EEC)

OBJECTIVE : amendment of Regulation (EC) No 3699/93 with a view to encouraging the permanent withdrawal from the fleet of vessels more than 30 years old. SUBSTANCE : - the ceiling on premiums for scrapping of a vessel will remain constant whatever the age of the vessel withdrawn more than 30 years old. Its level will be limited to the amount for vessels 30 years old; - in view of the exceptional character of measures for temporary cessation of fishing activities, a ceiling will be set for the Community funds allocated. The grant cannot therefore exceed, for each calendar year and for each Member State, ECU 200 000 or 0.5% of the funds foreseen in the financial plan for each Member State for the year concerned, whichever amount is the greater. ?

Fisheries and aquaculture sector: arrangements regarding Community structural assistance (amend. Regul. 3699/93/EEC)

The Committee considers that the proposed ·% limit for Community assistance appears to be based on experience over a very short period of time and would provide no flexibility for year-by-year fluctuations. Accordingly, the ESC recommends that the overall limit of FIG assistance for each Member State be raised to the greater of ECU 400,000 or 1% of the funds foreseen in the sectoral financial plan for each Member State for the year concerned. Subject to the above reservation, the ESC supports the proposal.?

Fisheries and aquaculture sector: arrangements regarding Community structural assistance (amend. Regul. 3699/93/EEC)

Parliament approved this proposal to amend a regulation without amendment (Rules 97 and 99 of its Rules of Procedure). ?

Fisheries and aquaculture sector: arrangements regarding Community structural assistance

(amend. Regul. 3699/93/EEC)

The Council took over the amendment to the Regulation, which was aimed at adapting the basic Regulation in order to take account of the rapid developments that had taken place in the working conditions of fishing vessels, on the one hand, and in the value of the fisheries rights associated with these vessels, on the other.

Fisheries and aquaculture sector: arrangements regarding Community structural assistance (amend. Regul. 3699/93/EEC)

OBJECTIVE: encouraging the definitive withdrawal from the fleet of vessels more than 30 years old. COMMUNITY MEASURE: Council Regulation (EC) No 96/965 amending Regulation (EC) No 3699/93 laying down the criteria and arrangements regarding Community structural assistance in the fisheries and aquaculture sector and the processing and marketing of its products. CONTENT: - the ceiling for the permanent withdrawal premium shall remain constant whatever the age of the vessel withdrawn beyond 30 years. The ceiling is that fixed for vessels 30 years old; - in view of the exceptional character of the temporary cessation measures for fisheries, it is proposed to limit the scope of these measures with a ceiling for Community aid. Thus, FIGG assistance cannot exceed, for each calendar year and for each Member State, ECU 350 000 or 0.85% of the funds set aside in each Member State's financial plan for the year concerned, whichever is greater. ENTRY INTO FORCE: 8 June 1996. ?
