Agricultural prices 1996/1997: oils and fats, common organisation of the market COM

Agricultural prices and related measures 1996/97 - Olive oil. The fluctuating production levels specific to this product may occasionally result in a shortage on the market and very high prices. In order to be able to respond to such a situation by increasing the level of imports, it is proposed to give the Commission the power to suspend partially or totally the Common Customs Tariff when the market price of olive oil is significantly higher than the intervention price. ?
