Conditions for structural measures in the fisheries and aquaculture sector (amend. regul. 3699/93/EEC)

OBJECTIVE: to amend for the fourth time Regulation (EC) No 3699/93 laying down the criteria and arrangements regarding Community structural assistance in the fisheries and aquaculture sector and for the processing and marketing of its products. SUBSTANCE: the proposal aims to make three modifications to Regulation (EC) No 3699/93: - product promotion: reference should be allowed in marketing campaigns to the origin of a product or location of a processing procedure providing that recognition has been granted under Regulation (EEC) No 2081/92 on the protection of geographical indications and designations of origin for agricultural products and foodstuffs. The terms of eligibility of promotional measures should therefore be extended to include this specific aspect; - launching aids for producers' organisations: Article 13 of Regulation (EC) No 3699/93 should make reference to this type of assistance so as to ensure the legal and budgetary consistency of the financial aid granted to producers' organizations implementing a plan to improve the quality and marketing of their products; - confirmation of the budgetary conversion rate for the ecu (budgetary ecu): for the sake of clarity, the ecu accounting rate is the only one to be used for the FIG since 1 January 1994. ?

Conditions for structural measures in the fisheries and aquaculture sector (amend. regul. 3699/93/EEC)

The Committee endorses the proposed three amendments. It does, however, recommend that the Commission propose to the Council an appropriate amendment to Regulation 2081/92 so that fish caught at sea, which do have specific qualities resulting from the processing techniques used and which otherwise meet the conditions of Article 2.4., are not excluded from eligibility from registration.?

Conditions for structural measures in the fisheries and aquaculture sector (amend. regul. 3699/93/EEC)

The committee on fisheries unanimously adopted the draft resolution on the Kindermann report (PSE, A) supporting three Commission proposals on: - amendment of the Community intervention criteria for the promotion of markets for fish and aquaculture products; - launching aids for producers' organizations; - application of the conversion rate for the ECU within the framework of the FIGG.?

Conditions for structural measures in the fisheries and aquaculture sector (amend. regul. 3699/93/EEC)

In adopting the report by Mr Heinz KINDERMANN (PSE, D), Parliament approved, without amendment, the modification to the 1993 Regulation laying down criteria and arrangements regarding Community structural assistance in the fisheries and aquaculture sector. ?

Conditions for structural measures in the fisheries and aquaculture sector (amend. regul. 3699/93/EEC)

OBJECTIVE: to amend for the fourth time Regulation (EEC) No 3699/93 laying down criteria and arrangements regarding Community structural assistance in the fisheries and aquaculture sector and for processing and marketing of its products. COMMUNITY MEASURE: Council Regulation (EC) No 25/97. SUBSTANCE: the Regulation makes three modifications to Regulation (EC) No 3699/93: - product promotion: reference should be allowed in promotional operations to the origin of a product or location of a processing procedure providing that recognition has been obtained under Council Regulation (EEC) No 2081/92 on protection of geographical indications and designations of origin for agricultural products and foodstuffs. The terms of eligibility of promotional measures are therefore widened to include such cases. - Launching aids for producers' organizations: it is necessary to mention, in Article 13 of Regulation (EC) No 3699/93, the financial aid granted to producers' organizations implementing a plan to improve the quality and marketing of their products; - confirmation of the budgetary conversion rate for the ecu (budgetary ecu): for the sake of clarity, the budgetary rate for the ecu is the only one to be used for the FIGG since 1 January 1994. DATE OF ENTRY INTO FORCE: 13 January 1997. ?
