Final act

Decision 1997/7 OJ L 003 07.01.1997, p. 0006 Summary

Minimum stocks of fossil fuel at thermal power stations (repeal. Direct. 75/339/EEC)

OBJECTIVE: repeal of Directive 75/339/EEC obliging the Member States to maintain minimum stocks of fossil fuel at thermal power stations.
SUBSTANCE: this Directive was adopted in the wake of the oil crisis in the 1970s in order to help to improve the Community's security of supply. The Commission believes that, were a crisis to arise, the Directive would no longer be useful to improve electricity supplies. It therefore proposes to repeal it. ?
