## Veterinary and animal nutrition sectors: microbiological criteria for foodstuffs and feedingstuffs

This proposal for a Council Decision on general conditions to be followed for establishing microbiological criteria for foodstuffs and feedingstuffs, including the conditions for their preparation, in the veterinary, foodstuffs and animal nutrition sectors dates from 1981. It is accompanied by two annexes. Annex A deals with the general principles to be followed for establishing microbiological criteria. Annex B contains a list of products for which the criteria require to be established. ?

## Veterinary and animal nutrition sectors: microbiological criteria for foodstuffs and feedingstuffs

The European Parliament approved the Commission's proposal.?

## Veterinary and animal nutrition sectors: microbiological criteria for foodstuffs and feedingstuffs

The Directorates General or responsible departments have asked for this proposal to be withdrawn. The reasons are indicated as follows: A) for objective reasons (change of de facto situation, objectives already achieved by other means, etc) B) because the Commission has now adopted another approach : - the proposal is replaced implicitly, - a new proposal is in preparation, - no planned replacement.?
