Decentralized Community agencies: Agency for safety and health at work

OBJECTIVE: to amend Regulation (EC) No 2062/94 establishing a European Agency for Safety and Health at Work in order to modify the regulatory framework governing the management of the Agency's budget. CONTENT: the proposed changes relate solely to the power of discharge: as this Agency is basically financed by Community subsidy, it is proposed to grant the power of discharge to the European Parliament at the recommendation of the board of directors of the Agency;?

Decentralized Community agencies: Agency for safety and health at work

In adopting the report by Mr Edward T. KELLETT-BOWMAN (PPE, UK) on the amendments to to the basic regulation on the European Agency for Safety and Health at Work, Parliament welcomed the Commission proposal, which addressed issues of long-standing concern to Parliament with regard to the discharge and financial control of the decentralized bodies. However, Parliament called for: -all of the Agency's revenue to be budgetized and regarded as preallocated resources of the European Union, -the Agency to be able to constitute a reserve to cover future expenditure; surplus revenue was to be paid back into the general budget of the Union, -the entering of amounts in the reserve in the Agency's budget and their withdrawal from it to be subject to the agreement of the Commission, which should first consult Parliament, -the Commission to evaluate the level of the fees received by the Agency after three years. It also recalled that it was a prerequisite to involve Parliament in the discharge procedure.?

Decentralized Community agencies: Agency for safety and health at work

In its amended proposal the Commission supported Parliament's amendments concerning the involvement of Parliament in the discharge procedure. However, the Commission did not take over the amendments on the own resources of this agency or those on any surplus revenue reverting to the Community budget. ?
