Veterinary checks in intra-Community trade

OBJECTIVE: the purpose of the proposal for a Directive is to reinforce veterinary checks by improving exchanges of information between the competent authorities of the Member States. SUBSTANCE: the proposed improvement will make it possible to use the ANIMO computerized system for intra-Community trade in animal products such as meat. Previously its use has been reserved primarily for trade in live animals and transmission of information from border posts. The Commission therefore proposes that Directive 89/662/EEC be amended to allow the ANIMO system to be extended if necessary to the products covered in the Directive. ?

Veterinary checks in intra-Community trade

The European Parliament approved the proposal (procedure without report). ?

Veterinary checks in intra-Community trade

The European Parliament confirmed its first reading, on the basis of the new legal base put forward by the Commission, of the text that it adopted on 18.02.1998 concerning this proposal for a directive.?

Veterinary checks in intra-Community trade

As this proposal is no longer of topical interest, it has been withdrawn by the Commission.
