Final act

Regulation 1999/1446
OJ L 167 02.07.1999, p. 0001 Summary

Conservation of fishing resources: statistical monitoring of trade in bluefin tuna (Thunnus thynnus) within the Community (amend. Regulation (EC) No 858/94)

OBJECTIVE: to amend Regulation (EC) No 858/94 to facilitate the management of the system for the statistical monitoring of catches of bluefin tuna. SUBSTANCE: As part of the measures to conserve and manage bluefin tuna (thunnus thynnus) stocks, the International Convention for the Conservation of Atlantic Tunas (ICCAT), to which the Community is a party, has introduced a system for the statistical monitoring of catches and imports of this species by the Contracting Parties. This system has been implemented in the Community by Council Regulation (EC) No 858/94. ICCAT has recently adopted two recommendations, with the purposes of: -facilitating management of the statistical monitoring system by the Community and its Member States (in particular by making it possible for a Member State to authenticate the statistical documents relating to catches made by vessels flying the flag of another Member State); -improving the reliability of this system (by extending it to re-exports). The aim of the proposal is to implement the measures provided for by these two recommendations by amending Regulation (EC) No 858/94 to include the new provisions needed for this purpose.?

Conservation of fishing resources: statistical monitoring of trade in bluefin tuna (Thunnus thynnus) within the Community (amend. Regulation (EC) No 858/94)

By adopting the report of Carmen Fraga Estévez (EPP, E), the Committe approved the Commission's proposed amendments to Community law incorporating recommendations by the International Convention for the Conservation of Atlantic Tuna (ICCAT), to which the European Community is a party, on the monitoring of catches and imports. They enable Member States to authenticate the statistical documents relating to catches made by vessels flying the flag of another Member State and introduce a re-export licence so that the system can be extended to re-exports of bluefin tuna. ?

Conservation of fishing resources: statistical monitoring of trade in bluefin tuna (Thunnus thynnus) within the Community (amend. Regulation (EC) No 858/94)

The proposal, which concerned the statistical monitoring of trade in bluefin tuna, was approved in the form of a committee report without debate. The Parliament's Rapporteur was Ms. FRAGA ESTEVEZ (E, PPE).?

Conservation of fishing resources: statistical monitoring of trade in bluefin tuna (Thunnus thynnus) within the Community (amend. Regulation (EC) No 858/94)

PURPOSE: to amend Regulation 858/94/EC in order to facilitate the system for the statistical monitoring of trade in bluefin tuna. COMMUNITY MEASURE: Council Regulation 1446/1999/EC amending Regulation 858/94/EC introducing a system for the statistical monitoring of trade in bluefin tuna within the Community. CONTENT: in the context of measures to regulate stocks of bluefin tuna adopted by the International Convention for the Conservation of Atlantic Tunas, hereinafter referred to as the 'ICCAT', to which the Community is a party, a system for the statistical monitoring of catches and imports of bluefin tuna has been implemented by the contracting parties. This system was implemented in the Community by means of Council Regulation 858/94/EC. The ICCAT has recently adopted 2 recommendations which aim:

- firstly, to facilitate management of this system by the Community and its Member States (the recommendation enables Member States to authenticate the statistical documents relating to catches of bluefin tuna made by vessels flying the flag of another Member State); - secondly, to improve the reliability of this system (it deals with the broadening the aforementioned system of re-exportation operations). The objective of this Regulation is to implement the measures provided for in these two recommendations by amending Regulation 858/94/EC in order to incorporate the new arrangements provided to this end. ENTRY INTO FORCE: 02/07/1999.?
