Decision 1999/282 OJ L 110 28.04.1999, p. 0013 Summary

Macro-financial assistance to Albania

OBJECTIVE: to grant ECU 20 m in macrofinancial assistance to Albania in the form of a long-term loan. **SUBSTANCE:** the purpose of the proposal is to provide a maximum of ECU 20 m in macrofinancial assistance to Albania in the form of a long-term loan, with a maturity not exceeding 15 years. The loan will help to ensure the viability of Albania's balance of payments and to consolidate its reserves. The Commission will be instructed to find the necessary resources on the financial markets and to manage the loan in collaboration with the Monetary Committee and in a manner compatible with any agreement reached between the International Monetary Fund (IMF) and Albania. After consulting the Monetary Committee, the Commission is to negotiate with the Albanian authorities concerning the economic policy conditions to be attached to the loan, and will periodically check, together with the Monetary Committee and the IMF, whether the policy pursued accords with the objectives set for the granting of the loan. The loan will be divided into at least two instalments: -the first to be released once the mid-term review of the first year of the structural adjustment programme concluded between the IMF and Albania has been completed, -the second to be released only on the basis of a satisfactory track record in implementing the agreements between the IMF and Albania. The Commission will report to the European Parliament and the Council at least once a year, providing an evaluation of the implementation of the proposal.?

Macro-financial assistance to Albania

The Committee will be recommending to the plenary during its February session in Strasbourg, in line with rapporteur Ms Leonie G.L. van BLADEL (UPE,NL), the approval, subject to certain amendments (tabled by the rapporteur, Mr van DAM (I-EDN,NL), as well as by the Foreign Affairs and Budget Committees), of the proposal for a Council Decision on providing macro-financial assistance to Albania (consultation

procedure). As the rapporteur points out in her explanatory statement, external financing is the major problem faced by the Albanian economy today, due to the country's balance of payments deficit and the region's instability. The proposal for a Council decision provides macro-financial assistance in the form of a long-term loan of a maximum of 20 million euro with a maximum term of 15 years. Of the USD 35 million needed in the first year after the aid provided by the IMF, the World Bank and other international donors, the EU has so far undertaken to provide 24.5 million euro from the 1998 budget, under Phare Special Assistance and the Community Food Security programme. In addition, it is proposed to grant Albania the loan under consideration to support the country's balance of payments. The amendments endorsed by the committee on external economic relations, concern the following points: 1) it is emphasized in the recitals that, in addition to supporting the process of institutional and structural reform in Albania, the assistance should also have the effect of improving the country's social and political situation; 2) it is proposed that the Phare Committee should be involved in the management of the assistance, on the same basis as the Monetary Committee; 3) it is requested from the Commission to inform the European Parliament: (i) on the economic and institutional policy conditions attached to the loan and agreed with the Albanian authorities, (ii) prior to the disbursement of the second instalment of the macro-financial assistance. ?

Macro-financial assistance to Albania

The Parliament voted to approve the proposal subject to some amendments. Parliament's Rapporteur was Ms. Leonie VAN BLADEL (UPE, NL). The main amendments were as follows : - The Commission will make the disbursement of the two instalments conditional upon verification of the rapid liquidation of the remaining pyramid scheme companies, and implementation of the newly adopted organic budget law; - the Commission shall also examine, before any disbursement, the situation as regards the approval of the new Customs Code, the consolidation of customs and tax revenue collection and the modernisation of customs services; - the Commission shall inform the European Parliament on the economic and institutional policy conditions attached to the loan and agreed with the Albanian authorities according to Art. 2(1); it shall also inform Parliament about the results of the verification carried out pursuant to Art. 2(2); - The Commission shall inform the European Parliament prior to the disbursement of the second instalment of the macro-financial assistance; - Article 4(5) is amended to 'The European Parliament and the Monetary and the Phare Committees shall be kept informed of developments in the operations referred to in Art. 4 (2) and (3) at least once a year.?'

Macro-financial assistance to Albania

PURPOSE: provision of macro-financial assistance to Albania. COMMUNITY MEASURE: Council Decision 1999/282/EC providing macro-financial assistance to Albania. CONTENT: The Council approved a decision providing macro-financial assistance to Albania in the form of a long-term loan facility of a maximum principal of up to 20 million euro, with a maximum maturity of 15 years and a grace period of 10 years, with a view to ensuring a sustainable balance of payments situation and consolidating the country's reserve position. This financial assistance follows the agreement between Albania and the IMF of a comprehensive set of mid-term stabilisation and policy reform measures, to be supported by a loan under the Enhanced Structural Adjustment Facility (ESAF). The macro-financial assistance will be made available to Albania in 2 instalments. The first instalment shall be released on the basis of the successful completion of a mid-term review of the first year of the stabilisation and policy reform programme supported by a 3\$year ESAF arrangement between the IMF and Albania. The second instalment shall be released on the basis of a satisfactory track record in the implementation of the ESAF arrangement and not before one quarter after the disbursement of the first instalment. The loan will be managed by the Commission, which is empowered to agree with Albania, in consultation with the Economic and Financial Committee, the economic and institutional policy conditions attached to the loan. The Commission will be obliged to verify at regular intervals that these conditions are being fulfilled and report yearly to the European Parliament and Council. ENTRY INTO FORCE: 28.04.1999.?
