## Air transport: civil aviation, technical requirements and administrative procedures

**PURPOSE:** to amend Council Regulation 3922/91/EEC on the harmonisation of technical requirements and administrative procedures in the field of civil aviation. **CONTENT:** the proposal essentially involves enabling recognition of the approvals granted by the authorities of third countries as regards the certification of products, organisations and personnel. To this end, the Commission proposes introducing a new article into Regulation 3922/91/EEC which would allow Member States to continue, under appropriate Community surveillance, to grant the necessary approvals on the basis of approvals granted by a third country according to simplified procedures, pending the conclusion by the Community of mutual recognition agreements. At the same time it is necessary to clarify the comitology aspects of this Regulation to accord with Decision 87/373/EEC on the procedures for the exercise of implementing powers conferred to the Commission.?

## Air transport: civil aviation, technical requirements and administrative procedures

The Parliament approved this technical proposal relating to approval to international procedures in civil aviation without a report.?

## Air transport: civil aviation, technical requirements and administrative procedures

## Air transport: civil aviation, technical requirements and administrative procedures

"Following the screening exercise of proposals pending undertaken as part of its effort for better regulation in the framework of the Partnership for Growth and Jobs in the European Union, the Commission has decided to withdraw certain proposals on which the Legislator has not yet reached a decision and which were found not to be consistent with the Lisbon and Better Regulation criteria, unlikely to make further progress in the legislative process or found to be no longer topical for objective reasons." (OJ C64 of 17.03.2006, pag. 3-10).
