Final act

Decision 2000/710 OJ L 290 17.11.2000, p. 0029 Summary

Car industry: equipments for motor vehicles fuelled by liquefied petroleum gas. Revised agreement, UN/ECE Regulation 67

PURPOSE: to enable accession of the European Community to United Nations Economic Commission for Europe Regulation 67 on the approval of special equipment for motor vehicles fuelled by liquefied petroleum gas. **CONTENT:** Following Council decision 97/836/EC of 27/11/97, the EC has become a contracting party to the United Nations Economic Commission for Europe (UNECE) 1958 revised agreement on 24/03/98 and adopted 78 regulations annexed to the agreement. That decision states, in particular, that the Community may decide to apply a regulation which it had adopted on accession to the revised agreement if, following Parliamentary assent, the Council approves that regulation by a qualified majority. At the 116th meeting of the UNECE's "Working Party on Vehicle Design", an amendment to regulation 67 was adopted in respect of the approval of special equipment for motor vehicles fueled by liquefied petroleum gas. That amended regulation, which is not mentioned in the list of regulations recognised by the EC set out in decision 97/836/EC, is intended, in particular, to remove the technical barriers to trade in motor vehicles that exist between the contracting parties, while at the same time ensuring a high level of safety and environmental protection. The EC can only accede to the amended version of regulation 67 if that amendment actually takes effect on the date(s) specified therein. It is also laid down that that regulation will be incorporated into the approval system for motor vehicles and will thus supplement the legislation in force within the Community. This proposal for a decision is intended to enable the Community to accede to UNECE regulation 67 on the approval of special equipment for motor vehicles that are fuelled by liquefied petroleum gas.?

Car industry: equipments for motor vehicles fuelled by liquefied petroleum gas. Revised agreement, UN/ECE Regulation 67

On 30 March 2000, the Council proposed a revised version of the text of the proposal which was formally presented by the Commission and which aims to permit the Community to accede to Regulation 67, as amended by the UNECE, on the approval of special equipment for motor vehicles fuelled by liquefied petroleum gas. This new text does not include any significant changes in comparison with the earlier text. It should enter into force with regard to all Contracting Parties which have not made known their opposition, on the dates(s) specified in the UNECE Regulation and should be incorporated into the approval system for Community vehicles.?

Car industry: equipments for motor vehicles fuelled by liquefied petroleum gas. Revised agreement, UN/ECE Regulation 67

The committee adopted the report (under the assent procedure) by Guido BODRATO (EPP-ED, I) recommending that Parliament give its assent to the accession by the European Community to United Nations Economic Commission for Europe Regulation No. 67 on the approval of special equipment for motor vehicles fuelled by liquefied petroleum gas.?

Car industry: equipments for motor vehicles fuelled by liquefied petroleum gas. Revised agreement, UN/ECE Regulation 67

The report drafted by Guido BODRATO (EEP-ED, Italy) was adopted by the European Parliament (procedure without debate).?

Car industry: equipments for motor vehicles fuelled by liquefied petroleum gas. Revised agreement, UN/ECE Regulation 67

PURPOSE : to enable the European Community to accede to the UN/EC agreement on the approval of special equipment for motor vehicles fuelled by LPG. COMMUNITY MEASURE : Council Decision 2000/710/EC on the accession by the European Community to United Nations Economic Commission for Europe Regulation No 67 on the approval of special equipment for motor vehicles fuelled by liquefied petroleum gas. CONTENT : this Decision provides that the European Community shall accede to the United Nations Economic Commission for Europe Regulation No 67 on the approval of special equipment for motor vehicles fuelled by liquefied petroleum gas, as amended and as notified by the Contracting Parties.?
