Decision 2000/646 OJ L 272 25.10.2000, p. 0026-0028 Summary

Montreal Protocol on substances that deplete the ozone layer: amendment

PURPOSE : to approve the amendment to the Montreal Protocol on substances that deplete the ozone layer. CONTENT : in September 1997, a third amendment to the Montreal Protocol on the substances that deplete the ozone layer was adopted in Montreal. The most significant changes to the Montreal Protocol include: - a ban on trade of methyl bromide with any State not Party to the Montreal Protocol; - a ban on exports of used, recycled and reclaimed controlled substances from Parties which are in non-compliance with the control measures in the Montreal Protocol; - a mandatory licensing system for imports and exports of controlled ozone depleting substances. These measures are within the scope of Community competence. The Commission negotiated these amendments on behalf of the European Community during the Ninth Meeting of Parties to the Montreal Protocol in September 1997. Negotiations were conducted in line with the negotiating mandate for that meeting received from the Council, and the provisions of the amendment are consistent with the Community's ozone protection policy. It is worth noting that the legal measures necessary to implement these new controls are included in the recently proposed Community ozone regulation (see 1998/0228 COD).?

Montreal Protocol on substances that deplete the ozone layer: amendment

The committee adopted the report (consultation procedure) by Anneli HULTHÉN (PES, S) approving the proposal on the conclusion of the amendment to the Montreal Protocol on substances that deplete the ozone layer. The committee felt that the Montreal Amendment would improve the protection of the ozone layer, since it provided a higher degree of control of trade in ozone-depleting substances. ?

Montreal Protocol on substances that deplete the ozone layer: amendment

The European Parliament, using the procedure without debate, adopted a resolution drafted by Anneli HULTHEN (PES, Sweden) approving the conclusion of the amendment to the Montreal Protocol on substances the deplete the ozone layer.?

Montreal Protocol on substances that deplete the ozone layer: amendment

PURPOSE : to conclude the third amendment of the Montreal Protocol. COMMUNITY MEASURE : Council Decision (2000/646/EC) concerning the conclusion of the amendment to the Montreal Protocol on substances that deplete the ozone layer. CONTENT : the Council adopted this Decision concerning the conclusion of the amendment to the Montreal Protocol on substances that deplete the ozone layer. This Decision approves the third amendment to the Montreal Protocol concluded in 1997, the text of which is annexed to the Decision. The Community is party to the Vienna Convention for the protection of the ozone layer and the Montreal Protocol on substances that deplete the ozone layer. In the framework of the Protocol, a third amendment to the Montreal Protocol introducing these controls was adopted in Montreal in September 1997. That amendment set out to achieve a higher degree of control of trade in ozone depleting substances and in particular on methyl bromide.?
