Agricultural prices 2000/2001: pigmeat, common organisation of the markets CMO (amend. Regulation (EEC) n° 2759/75)

PURPOSE: the setting of basic price for pigmeat for the 2000/2001 marketing year. CONTENT: in accordance with the approach followed for the reform of the common organisation of the markets in connection with Agenda 2000 and in order to enable producers to work out longer term production plans, the basic price should be fixed without any limit in time, without prejudice to any revisions that may be called for in the future. The basic price must be set at a level that helps to stabilise market prices without leading to the formation of structural surpluses within the Community. In line with the multiannual approach, it is proposed that the basic price and the standard quality be fixed in the basic Regulation 2759/75/EEC. The basic price should remain at the present level of EUR 1 509.39/tonne. It should be remembered that the specific role of the basic price relates to intervention measures, i.e. the possible grant of private storage aid. Such measures can be introduced when the average Community market price is less than 103% of the basic price. The standard quality is fixed for: - carcasses weighing from 60kg to less than 120kg: grade E, - carcasses weighing from 120kg to 180kg: grade R. The proposal also updates the article in Regulation 2759/75/EEC to bring the committee procedures into line with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission.?

Agricultural prices 2000/2001: pigmeat, common organisation of the markets CMO (amend. Regulation (EEC) n° 2759/75)

The committee adopted the report (consultation procedure) by Elisabeth JEGGLE (EPP/ED, D) on the farm-price package for 2000/2001. It amended the Commission proposal on the common organisation of the market in cereals as it was opposed to the Commission's plans to reduce the monthly increments paid to cereal farmers by 7.5% in the coming year. The committee called for cereals increments to be maintained at current levels in the coming year and thereafter. It also called for the derogation concerning the maximum moisture content in cereal to be continued, on the grounds that this provision was of importance to a number of Member States.?

PURPOSE: to amend Council Regulation 2759/75/EEC on the common organisation of the market in pigmeat. **COMMUNITY MEASURE:** Council Regulation 1365/2000/EC amending Regulation 2759/75/EEC on the common organisation of the market in pigmeat. **CONTENT:** The Council formally accepted the Regulation on the common organisation of the market in pigmeat. For the pigmeat sector, prices are fixed for an indeterminate period, following the CAP reforms since 1992. In line with the multiannual approach, the basic approach and the standard quality are fixed in the basic Regulation 75/2759/EC. Agricultural prices 2000/2001: pigmeat, common organisation of the markets CMO (amend. Regulation (EEC) n° 2759/75)

Following discussion of Commission proposals on setting prices for agricultural products the Council adopted the Regulations concerning sugar (by a qualified majority) and pigmeat and noted that there were problems with the other products; it agreed to resume consideration of this subject at its next meeting. The Spanish delegation regretted that no solution had been found as regards its repeated request for a support system for nuts, during the current discussion of agricultural prices for 2000/2001 marketing year.?
