Final act

Directive 2002/54 OJ L 193 20.07.2002, p. 0012-0032 Summary
--

Beet: marketing of seeds (codif. Directive 66/400/EEC)

Taking account of the legislative amendments made to Council Directive 66/400/EEC since the Commission's initial proposal of 11 December 1995 on the marketing of beet seed and the amended proposal from 3 September 1998 as well as the results of the work already carried out in the Council, the Commission has decided to present a second codified amended proposal of this proposed Directive.?

Beet: marketing of seeds (codif. Directive 66/400/EEC)

The European Parliament, using its procedure without report, approved the proposal.?

Beet: marketing of seeds (codif. Directive 66/400/EEC)

PURPOSE : to consolidate Directive 66/400/EEC on the marketing of beet seeds. COMMUNITY MEASURE : Council Directive 2002/54/EC on the marketing of beet seed. CONTENT : for reasons of clarity and rationality, this Directive aims to consolidate Directive 66/400/EEC, modified on several occasions since its adoption. The new directive replaces the various directives which are the subject of the codification procedure. It respects the substance of the codified texts completely and is restricted to gathering them in a single text while making only formal amendments required by the procedure of codification. ENTRY INTO FORCE : 9 August, 2002.?

Beet: marketing of seeds (codif. Directive 66/400/EEC)

ACT : Commission Regulation 217/2006/EC laying down rules for the application of Council Directives 66/401/EEC, 66/402/EEC, 2002/54/EC, 2002/55/EC and 2002/57/EC as regards the authorisation of Member States to permit temporarily the marketing of seed not satisfying the requirements in respect of the minimum germination.

CONTENT : this Regulation lays down the rules applying to requests by Member States for authorisation to permit temporarily the marketing of seed which does not satisfy the requirements in respect of minimum germination made under the above-named Directives. Pursuant to these Directives 66/401/EEC, 66/402/EEC, 2002/54/EC, 2002/55/EC and 2002/57/EC, seed could be marketed only where the requirements in respect of the minimum germination capacity have been met, or in cases where the quantity of available seed which satisfies the germination capacity requirements is insufficient, the Commission has permitted the marketing of prescribed maximum quantities of seed which does not satisfy the requirements laid down in those directives in respect of the minimum germination capacity.

However, the process of granting the authorisations was too slow.

Hence, and in order to simplify and accelerate the authorisation procedure while ensuring that the Commission and the Member States have all the information necessary to evaluate and respond to the application, this Regulation lays down the details of a consultation procedure between the Commission and the Member State.

ENTRY INTO FORCE : 16/02/2006.
