EC/Mauritania fisheries agreement: protocol for the period from 1st August 2001 to 31 July 2006

The committee adopted the report by Pat the Cope GALLAGHER (UEN, IRL) approving the proposal under the consultation procedure subject to a few amendments. In view of the financial and social importance of targeted measures, which had been given a new emphasis under the Protocol, the committee wanted the Commission to forward to Parliament and the Council the annual report on targeted measures which the Mauritanian authorities were now required to provide. The Regulation is in accordance with the initial proposal which laid down the fishing opportunities to be allocated among Member States. The new Protocol provides for an increase of possibilities for fishing for categories 1, 5 and 8 (crustaceans, cephalopods and tuna seiners/pole-and-line), a decrease for categories 3, 4, 6, 7 and 9 (demersal, lobsters, tuna seiners and pelagic species) and the status quo for category 2 (black hake). In addition, there is also an increase of 10% for the crustaceans and 42 vessels (average of the previous protocol) and 55 vessels for cephalopods for the duration of the present Protocol. With regard to category 9, pelagic species, there is a decrease from 22 to 15 vessels. The total financial contribution is set at EUR 86 million per year, comprising EUR 82 million financial compensation and EUR 4 million to cover financial assistance for fisheries research, institutional support for fisheries surveillance, rescue services and the management of fishing licences, maritime training, the development of fisheries statistics and participation in international seminars and meetings. The possibilities for fishing set out in the Protocol are divided between Spain, Italy and Portugal according to a allocation of Gross registered tonnage (GRT) and the number of vessels which may be used. If licence applications from these Member States do not cover all the fishing opportunities fixed by the Protocol, the Commission may take into consideration licence applications from any other **ENTRY INTO FORCE** : the Regulation shall entry into force 25.12.2001. It should be added that the Council has also adopted a decision relating the provisional application of this Protocol (2001/926/EC). ?
