Final act

[Regulation 2002/923](#)
[OJ L 144 01.06.2002, p. 0001](#) Summary

EC/Seychelles fisheries agreement: protocol for the period from 18 January 2002 to 17 January 2005

PURPOSE : to conclude the Protocol defining, for the period from 18 January 2002 to 17 January 2005, the fishing opportunities and the financial contribution provided for by the Agreement between the European Economic Community and the Republic of Seychelles on fishing off Seychelles. **CONTENT** : the Protocol to the Fisheries Agreement between the European Economic Community and the Republic of Seychelles expires on 17 January 2002. A new Protocol was initialled by both parties on 28 September 2001 fixing the technical and financial conditions governing the fishing activities of Community vessels in Seychelles waters during the period 18 January 2002 to 17 January 2005. The Commission proposes, on this basis, that the Council adopt by Regulation the Protocol setting out the fishing opportunities and the relevant financial and technical conditions agreed between the European Community and the Republic of Seychelles for the period from 18 January 2002 to 17 January 2005. A proposal for a Council Decision on the provisional application of the new Protocol pending its definitive entry into force is the subject of a separate procedure. The fishing possibilities provided for in the Protocol are allocated among the Member States as follows: - Tuna seiners: Spain 18 vessels France 20 vessels Italy 1 vessel United Kingdom 1 vessel - Surface longliners: Spain 15 vessels France 5 vessels Portugal 7 vessels With regard to the financial contribution, it shall be set at EUR 3,460,000 per year, out of which Seychelles agrees to allocate EUR 1,160,000 per year. The balance (EUR 2,300,000), hereinafter referred to as financial compensation, shall be paid into an account belonging to the government of Seychelles notified by the Central Bank of Seychelles. The financial contribution corresponds to a catch of 46,000 tons of tuna per year in Seychelles waters. If the catch by Community vessels in Seychelles waters exceeds 46,000 tons, the Community shall increase the financial contribution proportionately. The first instalment of the financial compensation is to be paid not later than 30 September 2002 and the others by 18 January 2003 and 18 January 2004. During the 3 year period, it is proposed that the measures set out below shall be financed from the financial contribution, to the total amount of EUR 3,480,000, broken down as follows: - EURO 1,230,000 for the development of local fisheries; - EURO 1,000,000 for the setting up and development of a monitoring control and

surveillance system, including appropriate technical assistance; - EURO 950,000 for scientific and technical programmes aiming at greater knowledge of fish stocks; - EURO 300,000 for training courses in the various scientific, technical and economic fields linked to fishing and for attending international meetings.?

EC/Seychelles fisheries agreement: protocol for the period from 18 January 2002 to 17 January 2005

The committee adopted the report by Daniel VARELA SUANZES-CARPEGNA (EPP-ED, E) broadly approving the proposal subject to a few amendments (under the consultation procedure). The committee was concerned that Parliament should be provided with better information to enable it to carry out its duties under the consultation procedure. It therefore stipulated that, before any agreement on renewal of the protocol, the Commission should submit to Parliament and Council a report on the implementation of the Agreement, including a cost benefit analysis. Only after this report had been received and Parliament consulted should the Council authorise the Commission to enter into negotiations for adopting a new protocol. Moreover, in view of the financial and social importance of targeted measures, the committee also wanted a copy of the report on the targeted measures which the authorities of the Seychelles were required to provide in accordance with the Protocol to be forwarded to Parliament. ?

EC/Seychelles fisheries agreement: protocol for the period from 18 January 2002 to 17 January 2005

The European Parliament, using its procedure without debate, adopted the resolution drafted by Daniel VARELA SUANZES CARPEGNA (EPP-ED, Sapin) and amended the Commission's proposal on the EU/Seychelles fishing agreement. (Please refer to the document dated 20/03/02.)?

EC/Seychelles fisheries agreement: protocol for the period from 18 January 2002 to 17 January 2005

PURPOSE : to conclude the Protocol defining the fishing possibilities off Seychelles. COMMUNITY MEASURE : Council Regulation 923/2002/EC on the conclusion of the Protocol defining the fishing possibilities and the financial contribution provided for in the Agreement between the European Economic Community and the Republic of Seychelles on fishing off Seychelles. CONTENT : This regulation concerns the conclusion of the Protocol defining, for the period from 18 January 2002 to 17 January 2005, the fishing possibilities and the financial contribution between the EC and Seychelles. The Member States concerned by the allocation of fishing possibilities are Spain, France, Italy, United Kingdom and Portugal. The allocation relates to tuna seiners and surface longliners. If licence applications from these Member States do not exhaust the fishing possibilities provided for in the Protocol, the Commission may take into consideration licence applications from any other Member States. Those Member States whose vessels fish under this Protocol must notify the Commission of the quantities of each stock taken in Seychelles waters. ENTRY INTO FORCE : 04/06/02.?
