2001 discharge: European Agency for safety and health at work

PURPOSE : to present the report from the Court of Auditors on the financial statements of the European Agency for Safety and Health at Work concerning the financial year 2001. **CONTENT** : the Court of Auditors has examined the financial statements of the European Agency for Safety and Health at Work for the financial year ended 31 December 2001. This examination has allowed the Court to obtain reasonable assurance that the annual accounts for the financial year ended 31 December 2001 are reliable and that the underlying transactions, taken as a whole, are legal and regular. The main observations made by the Court are as follows. The report states that the appropriations available for the financial year amounted to EUR 14 million, consisting of EUR 12 million for the financial year 2001 and EUR 2 million in carry-overs from the previous financial year. In addition to its budgetary allocation, the Agency received a subsidy from the Commission of EUR 624 000 for a multiannual operation to prepare the candidate countries for membership. A total of EUR 126 959 of these appropriations was committed in 2001 and payments of EUR 17 048 were made, with the balance being carried over. Of the appropriations for the financial year 2001, EUR 11.3 million was committed and payments were made for EUR 5.0 million, or 44% of the commitments entered into. The balance of the appropriations was either carried over (EUR 6.2 million) or cancelled (0.8 million). Out of the operating appropriations (Title III), which totalled EUR 7.6 million, a sum of EUR 7.3 million was committed, of which 1.5 million was paid out and EUR 5.8 million had to be carried over the following financial year. The balance was cancelled. The very large total for carryovers of operating appropriations is due to the fact the Commission entrusted the Agency with an important measure (EUR 4.5 million) during the course of the financial year 2001. The time required for its preparation meant that it could not be implemented in 2001 and all the appropriations allocated to it had to be carried over to the financial year 2002 irrespective of this fact, however, the carry-over rate for operating appropriations is still very high and the Agency should continue to improve the quality and monitoring of the programming of its activities. The appropriations carried over from the previous financial year totalled EUR 2 million, EUR 1.7 million of which related to Title III. Out of these appropriations, payments totalling EUR 1.7 million were made, EUR 1.5 million of which related to Title III, and the balance was cancelled. - Regarding the financial statements : the Agency does not depreciate its fixed assets. It should apply the valuation and depreciation rules adopted by the Commission so that the values entered in the balance sheet provide a faithful picture of the goods comprising its assets. The Agency should step up the measures already taken to minimise the risk of repayments being made twice over and must therefore reimburse mission expenses to the persons it invites to its offices on the basis of original documents, rather than copies. The S12 budgetary accounting system used by the Agency should not allow the operations for a financial year to be amended after the closure date (15 January after the following financial year), except in the cases provided for in the

rules. As regards the application of the financial provisions, on 23 February, the Agency implemented the budget heading relating to the field of 'Research- Work and Safety' by signing a contract valued at EUR 225 000, even though the available appropriations amounted to just EUR 185 000. In order to cover the shortfall of EUR 40 000 between the available appropriations and the contract amount, the Agency used appropriations entered under a different budget heading relating to a programme for small and medium sized enterprises, without submitting any justification. This practice does not comply with the principle of budgetary specification. Lastly, the Court remarks that the Agency systematically carries over the entire balance of provisional commitments to the following financial year without justifying this on the basis of order forms that have already been issued. The Agency has commented on the main observations made by the Court. In particular, it states that there was a high carryover rate for operating appropriations from 2001 to the next financial year. This was due to the fact that of the EUR 5.8 million mentioned by the Court, EUR 4.5 million directly concerned the 'SME Funding scheme 2001 to 2002' which was a new activity desired by the European Parliament and entrusted to the Agency by the Commission. As for the rest, within the limits of the statutory framework in which it operates, the Agency has made every effort to limit its rate of appropriations carried over. In addition, the Agency is constantly seeking to put suitable tools in place or to improve those already in use with a view to producing a lasting improvement in the quality and monitoring of its programming of activities.?

2001 discharge: European Agency for safety and health at work

PURPOSE : to present the Council Recommendation on the discharge to be given to the Director of the European Agency for Safety and Health at Work in respect of the implementation of the budget of the European Agency for Safety and Health at Work for the financial year 2001. **CONTENT :** based on the observations made by the Court of Auditors on the implementation of the budget, the Council recommends that the European Parliament give a discharge to the Director of the Agency. Recalling that EUR 1.7 million (85%) of the EUR 2 million in appropriations carried forward from the financial year 2000 to the financial year 2001 have been utilised and that EUR 6.2 million in appropriations have been carried forward from the financial year 2001 to the financial year 2002 and that EUR 1 million have been cancelled, the Court considers it important to make comments on this issue. In particular, the Council welcomes the fact that the Court of Auditors has been able to record a statement of assurance in respect of the reliability of the Agency's accounts for the financial year 2001, and in respect of the legality and regularity of the underlying transactions as a whole. The Council shares the Court's view on the need to improve the quality and monitoring of the planning of the Agency's operational activities with a view to limiting the carrying over of operating appropriations. The Council calls upon the Agency to apply without delay the valuation and depreciation rules for assets and to take account of them in the financial statements. The Council notes the Agency's undertaking to follow the Court's recommendations on setting up a system for monitoring pending recovery orders and the carry-over of appropriations relating to the reimbursement of missions.?

2001 discharge: European Agency for safety and health at work

The committee adopted the report by Freddy BLAK (EUL/NGL, DK) postponing the decision on granting discharge to the European Monitoring Centre on Racism and Xenophobia for the 2001 financial year. In its accompanying resolution, the committee welcomed the fact that, under the new legal framework resulting from the new Financial Regulation, Parliament was the competent authority for giving discharge to the Monitoring Centre (one of the satellite bodies which receives grants charged to the Community budget). It regretted that, in the circumstances related to this transition from the previous financial rules to the new ones, there had not been sufficient time to obtain the full information from the satellite bodies that Parliament needed in order to fulfil its role as discharge authority. The committee therefore expressed its intention of considering its decision on the discharge once it had received all such information.?

2001 discharge: European Agency for safety and health at work

COMMUNITY MEASURE : European Parliament Decision 2003/407/EC on the postponement of the decision concerning discharge to the Director of the European Agency for Safety and Health at Work, the Director of the European Environment Agency, the Director of the Translation Centre for the bodies of the European Union, the Director of the European Monitoring Centre for Drugs and Drug Addiction, the Director of the European Monitoring Centre on Racism and Xenophobia, in respect of the implementation of each Agency's budget for the financial year 2001. **CONTENT :** with the present Decision, the European Parliament has decided to postpone the decision concerning discharge to the Directors of : - the European Agency for Safety and Health at Work; - the European Environment Agency; - the Translation Centre for the bodies of the European Union; - the European Monitoring Centre for Drugs and Drug Addiction, and - the European Monitoring Centre on Racism and Xenophobia; in respect of the implementation of each Agency's budget for the financial year 2001. Parliament also presents a resolution which contains the comments accompanying the decision on the postponement of the decisions (please refer to the summary of the European Parliament's opinion dated 8 April 2003).?

2001 discharge: European Agency for safety and health at work

The committee adopted the report by Freddy BLAK (EUL/NGL, DK) granting discharge to the European Monitoring Centre on Racism and Xenophobia for the 2001 financial year now that it had received the necessary information. In its accompanying resolution, the committee made a number of general points concerning the different Community Agencies: (1) it reiterated Parliament's previously-expressed view that the Agencies could be entrusted with more operational tasks, such as implementing Community programmes in the field of education or health. In this way the Commission would not be required to create yet more executive agencies; (2) as part of the preparations for enlargement, there was a need to ensure the better functioning of these Community bodies, including the possibility of mergers of agencies in the event of overlapping of activities; (3) there should be a strict segregation of duties between authorising officers and accounting officers; (4) to counter the risk of irregularities and mismanagement, there should be more effective control procedures. The Court of Auditors should increase the number of checks carried out by its auditors, the agencies' respective Internal Auditors should be given real control powers instead of a merely advisory role as at present and the Commission's Internal Audit Service should also carry out checks in the agencies.?

2001 discharge: European Agency for safety and health at work

PURPOSE : to grant discharge to the Director of the European Agency for Safety and Health at work for the year 2001. LEGISLATIVE ACT : European Parliament Decision 2003/888/EC on the discharge to the Director of the European Agency for Safety and Health at Work in respect of the implementation of its budget for the financial year 2001. CONTENT : the European Parliament has given discharge to the Director of the European Agency for Safety and Health at Work, in respect of the implementation of its budget for the financial year 2001. It records its comments in the accompanying resolution dated 6 November 2003 (please refer to the previous document).?

2001 discharge: European Agency for safety and health at work

The European Parliament gave discharge to the European Agency for Safety and Health at Work in respect of the implementation of its budget for the financial year 2001. (Please see the document dated 20/10/03.) The rapporteur was Freddy BLAK (EUL/NGL, Denmark.) Parliament felt that appropriate consideration should be given to the Agency's position in favour of a multiannual programme for health and safety issues in SMEs, based on a decentralised approach and aimed at developing a safety culture in SMEs through partnership and developing networks. The Agency should improve the programming of its work with regard to the national focal points. An appropriate planning of their tasks and an enhanced monitoring of implementation will help achieve positive results. Parliament commended the fact that the Agency and the European Foundation for the Improvement of Living and Working Conditions have very recently concluded a specific cooperation agreement in order to improve complementarity and remove any risk of duplication of their work. Notwithstanding these efforts, a solution should be found, in the context of the upcoming enlargement, with regard to the composition of boards which, as a general rule, are already ponderous. As a general point with regard to the agencies, Parliament expressed its concern that the Commission's Internal Audit Service does not carry out any checks on the Agencies. This implies that Articles 71 and 72 of Regulation 2343/2002/EC are not being adhered to and that, in practice, an outside control of the quality of management and control systems of the agencies is left to be carried out in the context of the Court of Auditors control. It called on the Commission to ensure that the necessary resources are made available so that the IAS is in a position to fulfill its tasks with regard to the internal control systems in the Agencies.?
