## Excise duty: lower rates on tobacco products for consumption in Corsica

**PURPOSE** : to permit France to prolong the application of lower rates of excise duty to tobacco products released for consumption in Corsica.

**CONTENT** : by the provisions of Directive 92/79/EEC and Directive 92/80/EEC, France could continue applying upto 31 December 2002 the same rates for tobacco products and cigarettes sold in Corsica as those in force on 31 December 1997. France considered more time was needed to bring the taxes applied in Corsica into line with those in mainland France, and requested prolongation of certain tax rules on tobacco products until 31 December 2009. To prevent damage to the island's economic and social equilibrium, the Commission agrees to derogation with effect from 1 January 2003 to 31 December 2009. France may apply a rate of excise duty that is lower than the national rate to cigarettes and other manufactured tobaccos released for consumption in Corsica. By the end of this derogation period, the tax rules for manufactured tobaccos must have been brought full into line with the rules for mainland France. In order to avoid too abrupt a change, the Commission proposes an intermediate increase in the excise duty currently levied on cigarettes in Corsica. On cigarettes, the provisions are as follows: - from 01/01/03 to 31/12/07 the total rate of excise duty must be at least 35% of the price charged for cigarettes of the most popular price category in Corsica; - from 01/01/08 to 31/12/09 the rate of excise duty must be at least 44% of the price charged for cigarettes of the most popular price category in Corsica; To avoid undermining the smooth functioning of the internal market, the volume of cigarettes eligible for this derogating measure is limited to an annual quota of 1200 tonnes. On other tobacco products: - for cigars and cigarillos : maintain the 10% rate applicable to Corsica; this is higher than the Community rate of 5%. - for fine-cut tobacco intended for rolling: keep the 25% rate applicable; this is lower than the minimum Community rate (30%) but during the five-year derogation period France will aim to bring it up to the minimum Community rate; - for other smoking products: keep the 22% rate applicable, which is higher than the minimum Community rate (20%). The reduced rate of excise duty will apply for the period from 01/01/03 to 31/12/09. By the end of this period the taxes applied in Corsica must have brought fully into line with those applicable in mainland France.?

## Excise duty: lower rates on tobacco products for consumption in Corsica

The committee adopted the report by John PURVIS (EPP-ED, UK) broadly approving the proposal under the consultation procedure, subject

to just two amendments. In order to achieve a more balanced and orderly transition by ensuring that the derogation is phased out gradually over several years (rather than waiting until 2008 and then phasing it out over a period of just two years), the committee proposed that the minimum rate be increased by 3 percentage points per year, with a final adjustment of 4 percentage points.?

## Excise duty: lower rates on tobacco products for consumption in Corsica

---

The European Parliament adopted a resolution with 452 votes in favour, 35 against and 22 abstentions on authorising France to prolong the application of lower rates of excise duty to tobacco products released for consumption in Corsica. The resolution was drafted by John PURVIS (EPP-ED, United Kingdom.) Parliament proposed amendments to the effect that the minimum rate be increased by 3% per year until the end of the transition period in 2009.?

## Excise duty: lower rates on tobacco products for consumption in Corsica

---

PURPOSE : to authorise France to prolong the application of lower rates of excise duty to tobacco products released for consumption in Corsica. LEGISLATIVE ACT : Council Directive 2003/117/EC amending Directives 92/79/EEC and 92/80/EEC, in order to authorise the French Republic to prolong the application of lower rates of excise duty to tobacco products released for consumption in Corsica. CONTENT : this Directive authorises France to prolong the application of lower rates of excise duty to tobacco products released for consumption in Corsica. In order to prevent damage to the island's economic and social equilibrium, this Directive stipulates that from 1 January 2003 to 31 December 2009 the French Republic may continue to apply a reduced rate of excise duty to cigarettes released for consumption in Corsica. This rate shall apply solely to an annual quota of 1200 tonnes. From 1 January 2003 to 31 December 2007 the reduced rate must equal at least 35 % of the price for cigarettes in the price category most in demand in Corsica. From 1 January 2008 to 31 December 2009 the reduced rate must equal at least 44 % of the price for cigarettes in the price category most in demand in Corsica. In addition, from 1 January 2003 to 31 December 2009 the French Republic may continue to apply a reduced rate of excise duty to manufactured tobaccos other than cigarettes released for consumption in Corsica. The reduced rate shall be: - for cigars and cigarillos, at least 10 % of the retail selling price, inclusive of all taxes, charged in Corsica; - for fine-cut tobacco intended for the rolling of cigarettes, at least 25 % of the retail selling price, inclusive of all taxes, charged in Corsica; - for other smoking tobaccos, at least 22 % of the retail selling price, inclusive of all taxes, charged in Corsica." ENTRY INTO FORCE : 20/12/2003. IMPLEMENTATION : 01/01/2004.?
