Directive 2004/75 OJ L 195 02.06.2004, p. 0031-0032 Summary
--

Energy products, taxation of motor fuels: temporary exemptions or reductions for Cyprus

CONTENT : to amend Directive 2003/96/EC as regards the possibility for Cyprus to apply, in respect of energy products and electricity, temporary exemptions or reductions in the levels of taxation. PURPOSE : the proposed tax Directive puts forward reasoned and proportionate transitional arrangements in favour of Cyprus. It should be dealt with as quickly as possible by the European Parliament, the Council and the European Economic and Social Committee, in order to avoid any legal vacuum at the time of enlargement. To recall, current Member States were granted transitional periods on motor fuels. Moreover, the requests submitted by Cyprus are similar to those presented by several other Accessing States. The lengthiest transitional periods granted in the Directive regarding gas oil and unleaded petrol are respectively 1 January 2012 and 1 January 2010. The proposal of 28 January 2004 contains transitional arrangements which are even longer in some cases. According to estimates made by the Commission, the implementation of the new minimum rates on gas oil and unleaded petrol would lead to an increase of the general price index, which would be higher than the ones expected for most present Member States enjoying a transition period until 2012 and similar to the ones of acceding States. The Commission is of the view that the Cyprus request is proportionate. The Commission concludes that Cyprus should be authorised to apply : - a transitional period until 1 January 2008 to adjust its national level of taxation on gas oil and kerosene used as propellant to the new minimum level of EUR 302 per 1000 l and until 1 January 2010 to reach EUR 330; - to apply a transitional period until 1 January 2010 to adjust its national level of taxation on unleaded petrol used as propellant to the new minimum level of EUR 359 per 1000 l.?

Energy products, taxation of motor fuels: temporary exemptions or reductions for Cyprus

The European Parliament adopted a resolution drafted by Christa RANDZIO-PLATH (PES, Germany) and approved the Commission's proposal.?

Energy products, taxation of motor fuels: temporary exemptions or reductions for Cyprus

PURPOSE : to apply temporary exemptions or reductions in the levels of taxation. LEGISLATIVE ACT : Directive 2004/75/EC amending Directive 2003/96/EC as regards the possibility for Cyprus to apply, in respect of energy products and electricity, temporary exemptions or reductions in the levels of taxation. CONTENT : the Council adopted a Directive allowing Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovenia and Slovakia to apply temporary exemptions or reductions in the levels of taxation. Those Member States should be permitted, on a temporary basis, to apply additional exemptions from or reduced levels of taxation, where it will not be detrimental to the proper functioning of the internal market and will not result in the distortion of competition. Moreover, consistent with the

principles in accordance with which transitional periods were originally granted under Directive 2003/96/EC, any such measures should be designed to bring about a progressive alignment with the applicable Community minimum rates. The Council also adopted a Directive which allows Cyprus to apply temporary exemptions or reductions in the levels of taxation, namely on gas oil and kerosene as well as on unleaded petrol used as propellant. ENTRY INTO FORCE : 01/05/2004.?
