Budget 2005/540 OJ L 196 27.07.2005, p. 0074-0074 Summary	

2003 discharge: European Foundation for the Improvement of Living and Working Conditions

PURPOSE : to present the financial statements of the European Foundation or the Improvement of Living and Working Conditions for the 2003 financial year.

CONTENT : the appropriations entered in the final budget amount to EUR 16.8 million of which 98.2% was contributed by the Community.

As regards the staffing policy, 88 posts were allocated in the establishment plan with only 76 occupied.

+ 16 other posts (auxiliary contracts, national experts on secondment, local staff, employment agency staff) making a total of 92 assigned to operational, administrative and mixed duties.

The European Foundation for the Improvement of Living and Working Conditions, whose headquarters are based in Dublin, aims to contribute to the establishment of better living and working conditions by increasing and disseminating knowledge which is relevant to this subject.

In 2003, the activities of the Foundation can be summarized as follows.

As regards living conditions : Survey of the quality of life in Europe (28 countries covered, 26 000 interviews); Maintenance and extension of a base of comparable data (Member States and candidate countries); Study of employment in health care services; Study relating to a new organisation of time over working life.

On working conditions : Report on working conditions in the acceding and candidate countries; Creation of a network of experts for the new European Working Conditions Observatory (EWCO); Studies relating to the hotel and catering and road transport sectors; Inventory of existing surveys of living and working conditions.

As regards industrial relations: Development of indicators in the field of financial participation; Study relating to migration and employment; Expansion of the ?European Industrial Relations Observatory? network (EIRO); Joint report with the Commission: ?Development of industrial relations in 2002?; Case studies of European Company Committees in 37 multinational companies.

Concerning the European Monitoring Centre on Change (EMCC) : Development of electronic publications; Organisation of four seminars and two workshops.

On transversal projects : a Report on corporate social responsibility (CSR).

Lastly, as regards information and communication : Communication activities in the Member States and candidate countries; Establishment of seven national liaison centers and 91 publications (this figure does not include translations).

2003 discharge: European Foundation for the Improvement of Living and Working Conditions

Having examined the revenue and expenditure account for the financial year 2003, the balance sheet of revenue and expenditure at 31 December 2003 of the European Foundation for the Improvement of Living and Working Conditions and the Court of Auditors' report on the financial statements of the Foundation for the financial year 2003, the Council recommends that the European Parliament gives a discharge to the Director of the Foundation in respect of the implementation of the budget for the financial year 2003.

To recall, EUR 3.9 million (98%) of the EUR 4.0 million in appropriations carried forward from the financial year 2002 to the financial year 2003 have been used. EUR 3.1 million in appropriations have been carried forward from the financial year 2003 to the financial year 2004 and EUR 0.1 million have been cancelled.

Observations in the Court of Auditors' report in relation to the financial year 2003 call for comments by the Council, which are annexed to this Recommendation.

The Council welcomes the fact that the Court of Auditors has been able to obtain reasonable assurance that the Foundation's annual accounts for the financial year ended 31 December 2003 are reliable and that the underlying transactions, taken as a whole, are legal and regular. However, some observations need to be made.

In order to avoid any management of funds outside the budget and to respect the principles of budgetary unity and accuracy, the Council urges the Foundation to use an amending budget to include subsidies received in the context of the PHARE programme, as well as in the case of a deficit in the outturn account. In 2003, the Foundation did not respect such a procedure for both events.

The Council intends in its ongoing review of the Foundation's basic regulation to duly take into account the Court's remarks on developing possible synergies and avoiding any overlapping of tasks with other Agencies that deal with subjects related to the same area of activities.

2003 discharge: European Foundation for the Improvement of Living and Working Conditions

EP: decision of committee responsible, 1st reading/single reading

The committee adopted the report by Inés AYALA SENDER (PES, ES) and Carl SCHLYTER (Greens/EFA, SE) giving discharge to the Director of the European Foundation for the Improvement of Living and Working Conditions for the 2003 financial year.

In its accompanying comments, the committee made a number of general points addressed to the Commission, the Agencies and the Court of Auditors (ECA):

- before the Commission defines the framework conditions for the use of regulatory agencies, an interinstitutional agreement should spell out common guidelines;
- the Commission should carry out a cross-cutting analysis, on a standard three-year cycle, of the coherence of agency activity with EU policy in general. It should also assess "the broader European added value" of the Agencies' work in their respective fields. Before any decision is taken to propose the creation of a new agency, the need for such an agency should be carefully evaluated, bearing in mind existing structures and the principles of subsidiarity, budgetary austerity and simplification of procedures;
- the Agencies were urged to comply fully with the budgetary principles set out in the Financial Regulation, further strengthen their internal management and control procedures and pay "special attention" to procedures for the award and management of contracts. They should also step up cooperation with each other, avoid duplication of work and develop a comprehensive strategy for making the results of their work available to the general public;
- the ECA and the Agencies were urged to strengthen their cooperation and establish a methodology "that prepares the ground for a positive budget discharge from the start of the process".

2003 discharge: European Foundation for the Improvement of Living and Working Conditions

OBJECTIVE: granting of discharge for implementing the EU's general budget for 2003 ? European Foundation for Living and Working Conditions.

LEGISLATIVE ACT: Decision 2005/540/EC of the European Parliament concerning the discharge for implementing the general budget of the EU for the 2003 financial year (European Foundation for Living and Working Conditions).

CONTENT: With this Decision, the European Parliament grants discharge to the Director of the European Foundation for Living and Working Conditions for the implementation of the budget for the 2003 financial year.

This decision is in line with the European Parliament's resolution adopted on 12 April 2005 and comprises a series of observations that form an integral part of the discharge decision (please refer to the summary of the opinion of 12/04/2005).

2003 discharge: European Foundation for the Improvement of Living and Working Conditions

The European Parliament adopted a resolution drafted by co-rapporteurs Inés AYALA SENDER (PES, ES) and Carl SCHLYTER (Greens/EFA, SE) giving discharge to the Director of the European Foundation for the Improvement of Living and Working Conditions in respect of the implementation of its budget for the financial year 2003. (Please see the summary of 16/03/05.)

Parliament's resolution is in two parts: the first concerns the discharge itself and the second part deals with an accompanying resolution on the management and implementation of the budget. The accompanying resolution also carries general points addressed to the Commission and the Agencies.

In response to the Court of Auditors observations, Parliament stated that it expected the Foundation from now on to record correctly in its budget extra-budgetary subsidies or allocations it receives. It also invited the Foundation to continue developing synergies with other Agencies and in particular with the European Agency for Safety and Health at Work as well as with Eurostat so as to avoid overlaps and to build on complementary aspects within common thematic responsibilities.

Parliament welcomed the Foundation's equality policy and mainstreaming of activities and also welcomed the Foundation's commitment to disseminating its findings to citizens and the measures it has taken to strengthen the Agency's strategy for information and communication.

Parliament went on to make some general observations common to all the agencies. The principal points may be summarized as follows:

General points addressed to the Commission and the Agencies: Parliament supported the Commission's efforts to establish a limited number of models, at least for future 'regulatory' agencies. It took the view that the structure of current and future agencies merited in-depth consideration at inter-institutional level. Before the Commission defines the framework conditions for the use of regulatory agencies, an inter-institutional agreement should spell out common guidelines. Parliament invited the Commission to perform by the end of 2005 a cross-cutting analysis of the evaluations carried out on individual Agencies in order to:

- reach conclusions with regard to the coherence of Agency activity with EU policies in general and as regards the synergies existing or to be developed between the agencies and Commission departments and the avoidance of overlapping between them;
- make an assessment of the broader European added value of the Agencies' outputs in their respective area of activity and of the relevance and effectiveness of the Agency model in implementing or contributing to EU policies;
- determine the impact of the Agencies' actions in terms of the proximity and visibility of the EU to its citizens.

In parallel with this exercise, the Commission should present proposals for changes to be made in the existing Agencies' Constituent Acts with a view to optimising its relationship with the Agencies. Before any decision is taken to propose the creation of a new agency, the Commission must undertake a strict evaluation of the added value of the function of this agency, bearing in mind existing structures, the principles of subsidiarity, budgetary austerity and the simplification of procedures.

General points addressed to the Agencies:

Parliament wanted to receive from each of the Agencies, the report summarizing information on the audits carried out by the Internal Auditor, the recommendations made and the action taken on these recommendations in accordance with Regulation 2343/2002/EC. Agencies should also make further efforts to apply correctly the staff regulations and rules applicable to other civil servants with regard to their staff. Parliament made some remarks on the imbalance between men and women in high-grade positions in the agencies, and stated that relevant provisions on equal opportunities must be observed.

In response to the relevant observations of the Court of Auditors, the Agencies must comply fully with the budgetary principles as set out in the Financial Regulation, in particular those of unity and budgetary accuracy.

Parliament went on to encourage the Agencies to strengthen their co-operation, thus opening up opportunities for developing synergies, and avoiding duplication of work. Parliament expected to be informed regularly on this issue.

It called on the Agencies to pay special attention to procedures for the award and management of contracts, and to strengthen their internal control procedures. Parliament suggested the setting-up of specialised units entrusted with the task of advising, on the basis of risk analysis, on how best to prepare contract award procedures.

General points addressed to the European Court of Auditors and the Agencies:

Parliament asked Court of Auditors and the Agencies to strengthen their co-operation in order to enhance the procedures and technical tools to improve the sound management of all the budgetary and finance issues. They should do this in order to establish a methodology that prepares the ground for a positive budget discharge from the start of the process.
