Final act
<a href="#">Directive 2005/24</a> <a href="#">OJ L 078 24.03.2005, p. 0043-0044</a> Summary

## Animal health requirements: breeding for purebred breeding bovine animals, storage of semen intended for intra-Community trade (amend. Directive 87/328/EEC)

PURPOSE : to amend Directive 87/328/EEC as regards the storage of semen of bovine animals intended for intra-Community trade.

PROPOSED ACT : Council Directive.

CONTENT : Council Directive 88/407/EEC lays down the animal health requirements applicable to intra-Community trade in and imports of semen of domestic animals of the bovine species. This Directive has been amended recently by Directive 2003/43/EC in view of allowing semen to be stored not only in "semen collection centres" (with own production) but also in "semen storage centres" (without own production).

Directive 87/328/EEC on the acceptance for breeding purposes of purebred breeding animals of the bovine species refers in Article 4 to animal health requirements for intra-Community trade and determines that semen from purebred breeding animals has to be collected, processed and stored in an "official approved insemination centre". Article 4 of Council Directive 87/328/EEC should be amended in order to avoid any confusion with the scope and definitions provided in Directive 88/407/EEC.

## Animal health requirements: breeding for purebred breeding bovine animals, storage of semen intended for intra-Community trade (amend. Directive 87/328/EEC)

The committee adopted the report by its chairman, Joseph DAUL (EEP-ED, F), approving the proposal unamended under the consultation procedure.

## Animal health requirements: breeding for purebred breeding bovine animals, storage of semen

## intended for intra-Community trade (amend. Directive 87/328/EEC)

---

The European Parliament adopted a resolution drafted by Joseph DAUL (EPP-ED, France) and approved the Commission's proposal.

## Animal health requirements: breeding for purebred breeding bovine animals, storage of semen intended for intra-Community trade (amend. Directive 87/328/EEC)

---

**PURPOSE:** amendment of Directive 87/328/EEC in order to ensure consistency in Community legislation with regard to the use of ova and embryos and storage centres for semen from pure-bred breeding animals of the bovine species.

**LEGISLATIVE ACT:** Council Directive 2005/24/EC.

**CONTENT:** this new Directive requires that semen be collected, processed and stored in a collection centre, or, if need be, stored in a storage centre, approved in accordance with Council Directive 88/407/EEC which lays down the animal health requirements applicable to intra-Community trade in and imports of semen of domestic animals of the bovine species.

Directive 87/328/EEC on the acceptance for breeding purposes of purebred breeding animals of the bovine species requires semen for intra-Community trade to be collected, treated and stored in an officially approved artificial insemination centre and Directive 88/407/EEC lay down the animal health requirements applicable to intra-Community trade in, and imports of, semen of domestic animals of the bovine species allows semen to be stored not only in semen collection centres but also in semen storage centres.

**ENTRY INTO FORCE:** 13/04/2005.

**TRANSPOSITION:** 24/03/2007.
