2004 discharge: EC general budget, Economic and Social Committee ESC

PURPOSE : presentation of the final annual accounts of the European Community for the financial year 2004 ? Other institutions : Section VI ? Economic and Social Committee.

CONTENT : this document sets out the amount of expenditure and the financial statement of the Economic and Social Committee (ESC) for 2004 and presents an analysis of its financial management. The available appropriations set out in the Court's 2004 budget amounted to EUR 103 million, with an 88,5% utilisation rate.

Main axes of 2004 expenditure : budget implementation of the ESC can be characterised by the following :

- Changes brought about by the enlargement process: the recruitment of 95 new advisors;
- Costs relating to the move from the ESC's seat to Belliard;
- The implementation of the new Staff Regulations and the new Financial Regulation.

On a political level, the activities of the ESC were set out by its President and confirmed at the Plenary in January 2004 and, on the other hand, the ESC Secretariat's 2003-2005 development plan which appeared in the 2004 Work Programme. The budget expenditure entered in this context to implement these priorities aimed, in particular to:

1. optimise the consultative role of the ESC with the European Parliament, the Council and the Commission by increasing cooperation;
2. improving the credibility of the ESC as an institutional representative of civil society;
3. strengthening the role of the ESC in the debate on the future of Europe;
4. development of the Committee's internal structures.

It should be noted that the mid-term review of the ESC's development plan showed that the actions carried out (or in the process of being carried out) were generally positive. Furthermore, most of the objectives set out in the 2004 Work Programme had been achieved.

The main issues of the ESC's budget implementation can be summarised as follows:

Title I (Staff costs) : this budget heading is mainly highlighted by the delays in recruitment of enlargement related staff. As a consequence, the budget implementation showed less significant expenditure for the following items :

- travel costs and mission costs,?
- costs for ESC special advisors and overtime,
- costs relating to the payment of officials from the new Member States,
- staff training costs,
- interpretation costs.

Title II (Operational expenditure) : the main issue under this heading was the Institution's change of address on 01.09.2004 which had a considerable impact on the budget. On the 31.12.2004, the ESC and the Committee of the Regions had joint long-term leases on 3 buildings : Montoyer 92, Belliard 99-101 and Belliard 68. On 12 May 2004, a new long-term lease was signed by the ESC and the Committee of the Regions for the 'Trèves 74' building. Given that the lease (27 years) shall take effect in February 2005, part of the ESC (40% of the value of EUR 22 million) shall be included in the balance sheet for 2005.

Other expenses related to :

- lower than expected rental costs,
- security costs for the Belliard 68 and 99-100 building which were lower than expected (certain contracts were not concluded),
- various equipment costs were lower than expected,
- reduced costs for the dissemination of information. As a consequence, this budget line shall be reduced in 2006.

Lastly, it should be noted that there was a clear under-utilisation of expenditure planned for the removal given that a more favourable proposition had been made (EUR 700.000 foreseen but less than EUR 300.000 was actually spent).

DETAILED SYNTHESIS OF 2004 EXPENDITURE: this detailed synthesis analyses the breakdown of the Economic and Social Committee expenditure for the financial year 2004. The figures mentioned can also be found in the 'Final annual accounts of the European Communities - Financial year 2004 ? Volume III'.

Implementation rate in 2004 :

- Appropriations available for 2004 : EUR 102.709.246;
- Appropriations committed amounted to EUR 90.955.257,89, an 88,56% utilisation rate ;
- Appropriations paid amounted to EUR 83.319.550,16;
- Appropriations carried over from 2003 to 2004 : EUR 5.752.544,89.

Main budget items and the use of commitment appropriations (Titles I and II):

- I : Institutional costs (Members and active staff) : EUR 62,5 million;
- II : Operational costs (buildings and materials) : EUR 28,5 million.

2004 discharge: EC general budget, Economic and Social Committee ESC

PURPOSE : to present the Court of Auditors' report on the implementation of the 2004 budget (other institutions ? Economic and Social Committee).

CONTENT : in its 28th Annual Report on the implementation of the general budget of the European Union, the Court states that overall improvements have been made by all the institutions in order to adapt their supervisory and control systems to the requirements of the new Financial Regulation. However, the risks identified in 2003 linked to the implementation of the Financial Regulation, together with the risks resulting from the introduction of new Staff Regulations and computerised systems for calculating salaries and pensions have not been adequately addressed by the supervisory and control systems in 2004.

Despite the progress made by the Commission in reforming its internal control system and the positive impact on the legality and regularity of the Commission's internal management of expenditure (DAS), further progress is still required in terms of operational effectiveness. The report states that the past audits by the Court showed that the errors found were mostly of a formal nature and not due to serious weaknesses in the control systems.

Supervisory and control systems : in 2004 all the institutions continued improving their supervisory and control systems in order to comply with the requirements of the new Financial Regulation. However, none of the institutions had fully implemented Internal Control Standards (ICS). In parallel, the NAP (?Nouvelle Application Paie?), a new computer application for calculating staff remuneration created and managed by the Commission Paymaster Office (PMO), was used by all the institutions. The NAP presented in 2004 various technical weaknesses, which created a new risk and, in many cases, resulted in the erroneous calculation of various elements of staff remuneration. The most evident errors were corrected manually before payment. Concerning one of those elements, in March 2005 NAP programmes were amended, the amounts paid in 2004 recalculated and, where necessary, corrected. These corrections led to recoveries amounting, for all the institutions, to a total of around EUR 1,9 million. Manual data transferred into the NAP from the computer systems recording the situations qualifying the staff for specific entitlements constituted a further specific risk of errors. However, controls were not reinforced accordingly.

A lack of control procedures concerning pension payments were noted in some institutions.

Lastly, except for the European Ombudsman and the European Data Protection Supervisor, occasional weaknesses were observed in the supervisory and control systems concerning procurement.

Annual activity reports and declarations of the Directors-General : in 2004, improvements were made to the annual activity reports and the declarations of the Directors-General. However, weaknesses were found in the supervisory and control systems of the institutions.

Specific observations on the Economic and Social Committee : the report indicates that the expenditure of the institution was EUR 92 million (against EUR 91 million in 2003).

As regards the implementation of the Economic and Social Committee's budget, the Court states that the main weaknesses concern:

- the application of a flat-rate sum, ranging from 30 % to 60 % of the maximum allowable amount, to staff who do not produce any evidence of having incurred accommodation costs;
- transfer of part of the salary with weighting coefficients granted without the necessary justification;
- procurement procedures.

The Court notes further weaknesses in the implementation of internal control standards. They were approved in July 2004. Not all the measures needed to achieve full compliance with them have been taken yet.

General conclusions : in conclusion, the Court considers, as a result of its audit, and in order to address the risks identified, that improvements should be made in the supervisory and control systems relating to the following areas: documentation of procedures; definition of the nature of the supporting documents which should make it possible to check that the expenditure is in accordance with the terms of the contracts or of the regulations and rules; grading of staff under the new staff regulations; remuneration, in particular payment of allowances and transfers of part of the staff emoluments with the application of a weighting coefficient.

2004 discharge: EC general budget, Economic and Social Committee ESC

The committee adopted the report by Nils LUNDGREN (IND/DEM, SE) proposing that discharge be granted to the European Economic and Social Committee (EESC) for 2004. In its accompanying comments, the committee noted that in 2004 the EESC changed its internal rules so as to designate a vice-president to be responsible for budgetary matters and for relations with Parliament. It also welcomed the fact that the EESC had forwarded the annual activity report, including a report by the internal auditor and accompanied by the statement of assurance by the authorising officer by delegation.

On buildings policy, the committee said that the Court of Auditors should carry out an audit on the Montoyer building renovation in addition to the audits pending on the buildings shared by the CoR and the EESC. It concluded that renting buildings would significantly reduce the risks involved for small institutions and that "this solution should be considered as a serious alternative for future building projects".

Lastly, the report welcomed the fact that the EESC's annual activity report included the results of ex-post controls in accordance with Article 52 of Commission Regulation No. 2342/2002 on the implementation of the Financial Regulation, and said that "in this respect the EESC's example could be usefully followed by other institutions".

2004 discharge: EC general budget, Economic and Social Committee ESC

The European Parliament adopted a resolution drafted by Nils LUNDGREN (IND/DEM, SE) and granted the Secretary-General of the European Economic and Social Committee discharge in respect of the implementation of the budget for the financial year 2004. In its accompanying statements, Parliament noted that in 2004 the European Economic and Social Committee (EESC) administered a budget of EUR 103 000 000 with a utilisation rate of 88.56 % (2003: 98.12 %).

Parliament recalled the EESC's assurance given in 2004 that there had been no further irregularities whatsoever with regard to the payment of its Members' travel expenses. However, the Court of Auditors referred in its annual report on the 2003 financial year, published in November 2004, to three cases in which the travel allowance paid to Members was twice the amount set out in the Committee's own rules. Parliament noted that the Belgian prosecution service had opened a formal investigation based on a finding by OLAF of strong prima facie evidence that up to EUR 45 000 in expenses was wrongfully claimed by an EESC Member over a six-year period. Parliament was aware that the EESC voted to lift the immunity of the Member concerned and that a judgment of the competent Belgian court is expected before the end of 2006.

Parliament went on to note that in 2004 the EESC changed its internal rules so as to designate a vice-president to be responsible for budgetary matters and for relations with Parliament. It welcomed the fact that the EESC had forwarded the annual activity report and pointed to the following findings arising from the annual activity report:

- the increase in the number of Members from 222 to 317 (an increase of 42,79 %) following enlargement on 1 May 2004;
- the closure and replacement of the imprest account office from 1 January 2004 with direct processing of payment orders in the Si2 computer programme;
- an increase in translation requests of 33,5 % in comparison with 2003;
- a 35% increase in the number of meetings;
- problems with NAP as well as difficulties in recruiting all staff needed in 2004.

On buildings policy, Parliament said that the Court of Auditors should carry out an audit on the Montoyer building renovation in addition to the audits pending on the buildings shared by the CoR and the EESC. It concluded that renting buildings would significantly reduce the risks involved for small institutions and that this solution should be considered as a serious alternative for future building projects.

Finally, it welcomed the fact that the annual activity report included the results of ex-post controls in accordance with Article 52 of Commission Regulation 2342/2002/EC on the implementation of the Financial Regulation, and said that in this respect the EESC's example could be usefully followed by other institutions.

2004 discharge: EC general budget, Economic and Social Committee ESC

PURPOSE: to grant discharge to the Economic and Social Committee for the 2004 financial year.

LEGISLATIVE ACT: Decision 2006/814/EC of the European Parliament on the on the discharge for implementation of the European Union general budget for the financial year 2004 (Section VI - European Economic and Social Committee).

CONTENT: with the present decision, the European Parliament grants the Secretary-General of the Economic and Social Committee discharge in respect of the implementation of the budget for the financial year 2004.

This decision is in line with the European Parliament's resolution adopted on 27 April 2006 and comprises a series of observations that form an integral part of the discharge decision (please refer to the summary of the opinion of 27/04/2006).
