Final act

[Regulation 2008/14](#)
[OJ L 008 11.01.2008, p. 0001](#) Summary

Export refunds: monitoring carried out at the time of export of agricultural products receiving refunds or other amounts

PURPOSE: to amend Regulation (EEC) No 386/90 on the monitoring carried out at the time of export of agricultural products receiving refunds or other amounts.

PROPOSED ACT: Council Regulation.

CONTENT: in the framework of control on export refunds, Article 3(2) of Regulation (EEC) No 386/90 requires Member States' authorities to execute physical checks on goods for a scrutiny rate of 5% per customs office, per calendar year and per product sector.

A first simplification was brought in by Council Regulation (EC) No 163/94: when a Member State applies risk analysis in accordance with (now Regulation (EC) No 3122/94), the minimum rate may be set on 2% per sector and 5% covering all sectors.

A second simplification is now proposed, by which a Member State applying risk analysis according to Regulation (EC) No 3122/94 covering all exporters may opt for applying the 5% average rate covering all sectors for the complete Member State instead of setting the rate per customs office.

Summarising the control rate per Member State as a whole is only justified when risk analysis in accordance with Regulation (EC) No 3122/94 is applied, and it is optional in order to allow Member States whose customs organisation is more complex to continue its decentralised control management.

The measure has been proposed by several Member States, in particular those who reorganised their customs services and processes by which centralised IT export declaration systems and a considerable reduction in the number of customs offices caused a need for better allocating the control efforts over their national territory.

Export refunds: monitoring carried out at the time of export of agricultural products receiving refunds or other amounts

The Committee on Budgetary Control adopted the report by Herbert BÖSCH (PES, AT) approving without amendment, under the consultation procedure, the proposal for a Council regulation amending Regulation (EEC) No 386/90 on the monitoring carried out at the time of export of agricultural products receiving refunds or other amounts.

Export refunds: monitoring carried out at the time of export of agricultural products receiving refunds or other amounts

The European Parliament adopted a resolution drafted by Herbert BÖSCH (PES, AT) approving the proposal for a Council regulation amending Regulation (EEC) No 386/90 on the monitoring carried out at the time of export of agricultural products receiving refunds or other amounts.

Export refunds: monitoring carried out at the time of export of agricultural products receiving refunds or other amounts

PURPOSE: to simplify the monitoring of export refunds, taking into account the need for a better allocation of checks in the territory of the Community.

LEGISLATIVE ACT: Council Regulation (EC) No 14/2008 of 17 December 2007 amending Regulation (EEC) No 386/90 on the monitoring carried out at the time of export of agricultural products receiving refunds or other amounts.

CONTENT: in the framework of control on export refunds, Regulation (EEC) No 386/90 requires Member States' authorities to execute physical checks on goods for a scrutiny rate of 5% per customs office, per calendar year and per product sector.

A first simplification was brought in by Council Regulation (EC) No 163/94: when a Member State applies risk analysis in accordance with the Regulation (now Regulation (EC) No 3122/94), the minimum rate may be set at 2% per sector and 5% covering all sectors.

The introduction of customs export procedures processed electronically with centralised control has reduced the relevance of the customs office of export as the basis for the application of checking rates.

As a result, the new Regulation introduces a second simplification, by which a Member State applying risk analysis according to the Community Regulation may opt for applying the 5% average rate covering all sectors for the complete Member State instead of setting the rate per customs office.

ENTRY INTO FORCE: 31/01/2008
