Mobilisation of the European Globalisation Adjustment Fund: redundancies in electrotechnical industry in Lithuania

In this document, the Commission gives a detailed analysis of the reasons for which it is proposing the mobilisation of the European Globalisation Adjustment Fund in favour of Lithuania.

The Lithuanian application relates to 651 redundancies in AB Snaig?, a manufacturer of refrigerators, and two of its suppliers, who were made redundant during a period slightly longer than the normal reference period of four months.

In order to establish the link between the redundancies and the financial and economic crisis, Lithuania argues that the global economic and financial crisis has had a serious impact on the market for refrigerators and refrigerating equipment. Snaig? has seen its sales in the EU and in the rest of Europe plummet since mid-2008, with the inevitable consequence of redundancies. The steep drops in sales are consistent with trends seen elsewhere in the EU, where manufacture of electrical equipment has suffered declines of over 22% in the first quarter of 2009 and a further drop of 27.5% in April 2009 alone.

Accordingly, the Commission's analysis leads it to conclude that it will approve EGF/2009/010 LT/Snaig? presented by Lithuania relating to the redundancies in AB Snaig? and two of its suppliers, as evidence of a direct and demonstrable link has been provided that these redundancies result from the global economic and financial crisis.

A co-ordinated package of eligible personalised services has been proposed. It is proposed to deploy EUR 258 163 from the EGF.

Mobilisation of the European Globalisation Adjustment Fund: redundancies in electrotechnical industry in Lithuania

PURPOSE: to mobilise the European Globalisation Adjustment Fund in respect of redundancies in the electronics sector in Lithuania.

PROPOSED ACT: Decision of the European Parliament and of the Council.

CONTENT: [Regulation EC N° 1927/2006](#) established the European Globalisation Adjustment Fund (EGF) to provide additional support to redundant workers who suffer from the consequences of major structural changes in world trade patterns and to assist them with their reintegration into the labour market. This Regulation has been last amended by [Regulation \(EC\) N° 546/2009](#) which temporarily broadens the scope for application of EGF and modifies the eligibility criteria. The amended Regulation is applicable for applications received from 1 May 2009. The [Interinstitutional Agreement of 17 May 2006](#) allows the mobilisation of the EGF within the annual ceiling of EUR 500 million. The Commission has carried out a thorough examination of the application submitted by Lithuania and it has made the following decision:

Lithuania: Case EGF/2009/010 LT/Snaig?: Lithuania submitted the application to the Commission on 23 July 2009. It was based upon the specific intervention criteria Article 2(c) of Regulation (EC) No 1927/2006 which allows applicants to derogate from the requirements of Articles 2(a) and 2(b) in small labour markets or in exceptional circumstances when redundancies have a serious impact on employment and the local economy. Lithuania has specified that its application seeks to derogate from Article 2(a), where the normal threshold is at least 500 redundancies over a 4-month period. The redundancies in AB Snaig? took place in two major waves, peaking in November 2008 and February-March 2009, and there was no single four-month period that captured at least 500 redundancies, even though the total redundancies exceeded that figure by adding around six weeks to the reference period. The application concerns 651 redundancies of whom 480 are targeted for EGF assistance. La demande porte ainsi sur 651 licenciements dont 480 sont concernés par l'aide du FEM.

IMPACT ASSESSMENT: none.

FINANCIAL IMPLICATIONS: the total annual budget available for the EGF is EUR 500 million. On the basis of the application for support from the Fund submitted by Lithuania, the Commission proposes to accept application EGF/2009/010 LT/Snaig? relating to the redundancies in AB Snaig? and two of its suppliers, as evidence of a direct and demonstrable link has been provided that these redundancies result from the global financial and economic crisis. A co-ordinated package of eligible personalised services has been proposed of which the requested contribution of the EGF is EUR 258 163 being 65% of the total cost.

By presenting this proposal to deploy the Fund, the Commission initiates the simplified dialogue procedure, as required by Point 28 of the Interinstitutional Agreement of 17 May 2006, in view of securing the agreement of the two arms of the budgetary authority on the need to use the Fund and the amount required. The Commission invites the first of the two arms of the Budgetary Authority that reaches agreement on the draft mobilisation proposal, at appropriate political level, to inform the other arm and the Commission of its intentions.

Mobilisation of the European Globalisation Adjustment Fund: redundancies in electrotechnical industry in Lithuania

The Committee on Budgets unanimously adopted the report by Reimer BÖGE (EPP, DE) on the proposal for a decision of the European Parliament and of the Council on the mobilisation of the European Globalisation Adjustment Fund (EGF) for a total amount of EUR 258 163 in commitment and payment appropriations to assist Lithuania in respect of redundancies in the refrigerator manufacturing sector.

MEPs recall that the European Union set up the appropriate legislative and budgetary instruments to provide additional support to workers who suffer from the consequences of major structural changes in world trade patterns and to assist their reintegration into the labour market.

Given that Lithuania requested assistance in respect of cases concerning redundancies in the refrigerator manufacturing sector which occurred in one enterprise ? "Snaig?" plc - and two of its suppliers, and that this application fulfils the eligibility criteria set up by the EGF Regulation, MEPs request the institutions involved to make the necessary efforts to accelerate the mobilisation of the EGF for the requested amount.

MEPs recall the institutions' commitment to ensure a smooth and rapid procedure for the adoption of the decisions on the mobilisation of the EGF, providing one-off, time-limited individual support geared to helping workers who have suffered redundancies as a result of globalisation. They stress that the European Union should use all its means to face the consequences of the global economic and financial crisis and that in this context, the EGF can play a crucial role in the reintegration of the workers made redundant into the labour market.

In addition, MEPs recall that:

- the EGF should support the reintegration of the individual redundant workers into employment and that assistance from the EGF shall not replace actions which are the responsibility of companies by virtue of national law or collective agreements, nor measures restructuring companies or sectors;
- in the context of mobilising the EGF, the Commission should not systematically transfer payment appropriations from the ESF, since the EGF was created as a separate specific instrument with its own objectives and deadlines;
- the functioning and the added value of the EGF should be evaluated in the context of the general assessment of the programmes and other various instruments created by the [IIA of 17 May 2006](#), within the process of the 2007-2013 multiannual financial framework mid-term review.

Furthermore, MEPs call on the Commission to include, in proposals for the mobilisation of the EGF, as well as in its annual reports, precise information on the complementary funding received from the European Social Fund (ESF) and other Structural Funds.

Lastly, they note that the new Commission's proposals for a decision on the mobilisation of the EGF refer to a sole Member State's application, which is in line with European Parliament requests.

Mobilisation of the European Globalisation Adjustment Fund: redundancies in electrotechnical industry in Lithuania

PURPOSE: to mobilise the European Globalisation Fund (EGF) in respect of redundancies in the Lithuanian refrigerator industry.

LEGISLATIVE ACT: Decision 2010/202/EU of the European Parliament and of the Council on the mobilisation of the European Globalisation

Adjustment Fund, in accordance with point 28 of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management.

CONTENT: by this decision, the European Parliament and the Council have decided that for the general budget of the European Union for the financial year 2010, the European Globalisation Adjustment Fund shall be mobilised to provide the sum of EUR 258 163 in commitment and payment appropriations.

This amount is intended to assist Lithuania in respect of redundancies in the refrigerator manufacturing sector (redundancies which occurred in the company, Snaigė, and in two of its suppliers).

Given that this application complies with the requirements for determining the financial contributions as laid down in Article 10 of Regulation (EC) No 1927/2006 ([EGF](#)), Parliament and Council have agreed that the abovementioned amount should be granted to Lithuania to meet its request.

To recall, the European Globalisation Adjustment Fund (EGF) aims to provide additional support to redundant workers who suffer from the consequences of major structural changes in world trade patterns and to assist them with their reintegration into the labour market. The Interinstitutional Agreement of 17 May 2006 on budgetary discipline allows for the mobilisation of the Fund through a flexibility mechanism, within the annual ceiling of EUR 500 million. It should also be noted that the scope of the Fund's application was extended as of 1 May 2009 to include assistance to workers made redundant as a result of the global economic and financial crisis.

Mobilisation of the European Globalisation Adjustment Fund: redundancies in electrotechnical industry in Lithuania

The European Parliament adopted by 546 votes to 45 with 14 abstentions a resolution approving the attached proposal for a decision on the mobilisation of the European Globalisation Adjustment Fund (EGF).

The Fund will be mobilised for a total amount of EUR 258 163 in commitment and payment appropriations to assist Lithuania in respect of redundancies in the refrigerator manufacturing sector.

Parliament recalls that the European Union set up the appropriate legislative and budgetary instruments to provide additional support to workers who suffer from the consequences of major structural changes in world trade patterns and to assist their reintegration into the labour market.

Given that Lithuania requested assistance in respect of cases concerning redundancies in the refrigerator manufacturing sector which occurred in one enterprise "Snaigė" plc - and two of its suppliers, and that this application fulfils the eligibility criteria set up by the EGF Regulation, Parliament requests the institutions involved to make the necessary efforts to accelerate the mobilisation of the EGF for the requested amount.

Parliament recalls the institutions' commitment to ensure a smooth and rapid procedure for the adoption of the decisions on the mobilisation of the EGF, providing one-off, time-limited individual support geared to helping workers who have suffered redundancies as a result of globalisation. It stresses that the European Union should use all its means to face the consequences of the global economic and financial crisis and that, in this context, the EGF can play a crucial role in the reintegration of the workers made redundant into the labour market.

In addition, Parliament recalls that:

- the EGF should support the reintegration of the individual redundant workers into employment and that assistance from the EGF shall not replace actions which are the responsibility of companies by virtue of national law or collective agreements, nor measures restructuring companies or sectors;
- in the context of mobilising the EGF, the Commission should not systematically transfer payment appropriations from the ESF, since the EGF was created as a separate specific instrument with its own objectives and deadlines;
- the functioning and the added value of the EGF should be evaluated in the context of the general assessment of the programmes and other various instruments created by the [IIA of 17 May 2006](#), within the process of the 2007-2013 multiannual financial framework mid-term review.

Lastly, Parliament calls on the Commission to include, in proposals for the mobilisation of the EGF, as well as in its annual reports, precise information on the complementary funding received from the European Social Fund (ESF) and other Structural Funds.
