Final act

[Directive 2013/31](#)
[OJ L 178 28.06.2013, p. 0107](#) Summary

Animal health requirements: intra-Union trade in and imports into the Union of dogs, cats and ferrets

PURPOSE: to protect animal and public health.

PROPOSED ACT: Directive of the European Parliament and of the Council.

IMPACT ASSESSMENT: no impact assessment was carried out.

LEGAL BASIS: Article 43 (2) of the Treaty on the Functioning of the European Union (TFEU).

CONTENT: the aim of this proposal is to amend Council Directive 92/65/EEC laying down animal health requirements governing trade in and imports into the Community of animals, semen, ova and embryos not subject to animal health requirements laid down in specific Community rules referred to in Annex A(I) to Directive 90/425/EEC.

(1) Directive 92/65/EEC lays down inter alia the animal health requirements governing trade in and imports into the Union of dogs, cats and ferrets. Those requirements refer to the relevant animal health requirements laid down in Regulation (EC) No 998/2003 of the European Parliament and of the Council on the animal health requirements applicable to the non-commercial movement of pet animals and amending Council Directive 92/65/EEC.

The repeal of Regulation (EC) No 998/2003 by a new Regulation on the non-commercial movement of pet animals makes it necessary to amend Directive 92/65/EEC in order to delete and replace the references to Regulation (EC) No 998/2003 by references to the new Regulation.

(2) In addition, Directive 92/65/EEC should also be amended to take account of the adoption of Council Regulation (EC) No 1/2005 on the protection of animals during transport and related operations and amending Directives 64/432/EEC and 93/119/EC and Regulation (EC) No 1255/97, which applies to the transport of dogs, cats and ferrets carried out within the Union.

Moreover, experience in the application of Directive 92/65/EEC has shown that operators find it difficult to comply with the requirement laid down in that Directive that a clinical examination is carried out on animals 24 hours before their dispatch. The recommendations of the World Organisation for Animal Health for imports of dogs and cats provide for a clinical examination to be carried out 48 hours before shipment of the animals. It is therefore appropriate to extend the time limit laid down in Directive 92/65/EEC to 48 hours and to amend that Directive accordingly.

This proposal and the proposal replacing and repealing [Regulation \(EC\) No 998/2003](#) are presented together in order to be adopted simultaneously.

BUDGETARY IMPLICATIONS: the proposal has no implications for the Union budget.

Animal health requirements: intra-Union trade in and imports into the Union of dogs, cats and ferrets

The Committee on the Environment, Public Health and Food Safety adopted the report drafted by Horst SCHNELLHARDT (EPP, DE) on the proposal for a directive of the European Parliament and of the Council amending Council Directive 92/65/EEC as regards the animal health requirements governing intra-Union trade in and imports into the Union of dogs, cats and ferrets.

It recommends the European Parliament to adopt its position at first reading, taking over the Commission proposal.

Animal health requirements: intra-Union trade in and imports into the Union of dogs, cats and ferrets

The European Parliament adopted by 586 votes to 8, with 7 abstentions, a legislative resolution on the proposal for a directive of the European Parliament and of the Council amending Council Directive 92/65/EEC as regards the animal health requirements governing intra-Union trade in and imports into the Union of dogs, cats and ferrets.

Parliament adopted its position at first reading following the ordinary legislative procedure. The amendments adopted in plenary are the result of a compromise reached between the European Parliament and the Council.

It is stipulated that to be the subject of trade, dogs, cats and ferrets shall satisfy the conditions set out in [Regulation of the European Parliament and of the Council on the non-commercial movement of pet animals](#). Import conditions must be at least equivalent to those provided for in the same Regulation.

Animal health requirements: intra-Union trade in and imports into the Union of dogs, cats and ferrets

PURPOSE: to facilitate the non-commercial movement of pet animals.

LEGISLATIVE ACT: Directive 2013/31/EU of the European Parliament and of the Council amending Council Directive 92/65/EEC as regards the animal health requirements governing intra-Union trade in and imports into the Union of dogs, cats and ferrets.

CONTENT: the Directive stipulates that to be the subject of trade, dogs, cats and ferrets shall:

- satisfy the conditions set out in Regulation (EU) No 576/2013 of the European Parliament and of the Council on the non-commercial movement of pet animals. The import conditions must be at least equivalent to those provided for in the same Regulation;
- undergo a clinical examination carried out within 48 hours prior to the time of dispatch of the animals by a veterinarian authorised by the competent authority; and
- be accompanied during transport to the place of destination by a health certificate which corresponds to the specimen in Part 1 of Annex E; and is signed by an official veterinarian who shall attest that the veterinarian authorised by the competent authority has documented in the relevant section of the identification document in the format provided for in Regulation (EU) No 576/2013 the clinical examination carried out showing, at the time of the clinical examination, that the animals are fit to be transported for the intended journey.

ENTRY INTO FORCE: 19/06/2013.

APPLICATION: from 28/12/2014.

ENTRY INTO FORCE: 29/12/2014.
