Final act

[Decision 2013/590](#)
[OJ L 308 16.11.2013, p. 0272](#) Summary

2011 discharge: European Network and Information Security Agency (ENISA)

PURPOSE: presentation by the Commission of the consolidated annual accounts of the European Union for the financial year 2011, as part of the 2011 discharge procedure.

Analysis of the accounts of the European Network and Information Security Agency (ENISA).

CONTENT: this Commission document sets out the consolidated annual accounts of the European Union for the financial year 2011 as prepared on the basis of the information presented by the institutions, organisations and bodies of the EU, in accordance with Article 129 (2) of the Financial Regulation applicable to the EU's General Budget, including the European Network and Information Security Agency (ENISA).

In 2011, the tasks and budget of this agency were as follows:

- description of the Agency's tasks: ENISA, which is located in Heraklion, Greece, was established under [Regulation 460/2004/EC](#) of the European Parliament and of the Council and its main task is to enhance the Community's capability to prevent and respond to network and information security problems by building on national and Community efforts.
- ENISA's budget for the 2011 financial year: the Agency's budget for 2011, as presented in the Commission document on the consolidated annual accounts of the European Union, gives the following figures:
 - forecasted income budget: EUR 8 million;
 - entitlements established: EUR 8 million;
 - amounts received: EUR 8 million;
 - outstanding: EUR 0 million.

The complete version of the Agency's final accounts may be found at the following address:
<http://www.enisa.europa.eu/about-enisa/accounting-finance>

2011 discharge: European Network and Information Security Agency (ENISA)

PURPOSE: presentation of the EU Court of Auditors report on the annual accounts of the European Network and Information Security Agency (ENISA) for the financial year 2011, together with the Agencies.

CONTENT: in accordance with the tasks conferred on the Court of Auditors by the Treaty on the Functioning of the European Union, the Court presents to the European Parliament and to the Council, in the context of the discharge procedure, a Statement of Assurance as to the reliability of the annual accounts of each institution, body or agency of the EU, and the legality and regularity of the transactions underlying them, on the basis of an independent external audit.

This audit concerned, amongst others, the annual accounts of the European Network and Information Security Agency (ENISA).

In the Courts opinion, the Agencies Annual Accounts fairly present, in all material respects, its financial position as of 31 December 2011 and the results of its operations and its cash flows for the year then ended, in accordance with the provisions of its Financial Regulation.

It considers that the transactions underlying the annual accounts of the Agency are, in all material respects, legal and regular.

The report confirms that the Agencies final 2011 budget was EUR 8.1 million and that the number of staff employed by the Agency at the end of the year was 51.

The report also makes a series of observations on the budgetary and financial management of the Agency, accompanied by the latters response. The main observations may be summarised as follows:

Courts comments:

- carry-overs: a significant number of appropriations were carried over to 2012 were substantial. This high level of carry over is at odds with the budgetary principle of annuality;
- assets: the Court identified the need to improve the documentation of fixed assets. Purchases of fixed assets are recorded at invoice and not at item level;
- recruitment: the Agency needs to improve the transparency of recruitment procedures.

Agencys replies:

- to further reduce the carry overs, the Agency started its procurement planning for 2012 and managed to launch respective procurement procedures related to activities provided for in the Work Programme 2012 in the last quarter of 2011. This practice should show results at the end of 2012;
- the Agency has streamlined its asset management with the introduction of ABAC Assets, the asset management module introduced by the Commission and used by Institutions and Agencies;
- the Agency has adopted relevant guidelines on the recruitment of staff on 2 March 2012.

Lastly, the Court of Auditors report contains a summary of the Agencies activities in 2011. This is focused in particular on the following:

- improving cooperation: the principal goal of the first Work Stream was to support the European Commission and the Member States in building on current cooperation schemes to intensify the exchange of information and cooperation between Member States. This includes providing data and opinions to the Commission in order to assist them in drafting new regulation as well as the identification and promotion of good practice in support of such legislation. This work fed into and takes into account the discussions at the European Forum for Member States (EFMS) and the European Public Private Partnership for Resilience (EP3R);
- improving Pan-European Critical Information Infrastructure Protection (CIIP) and Resilience: the objective of work stream 2 is to assist Member States in implementing secure and resilient ICT systems and to increase the level of protection of critical information infrastructures and services in Europe. This Work Stream is closely aligned with the CIIP Action Plan described in the Commissions communication of March 2009 and of March 2011. Much of this work also directly supports objectives laid down in the Internal Security Strategy document as well as the Digital Agenda. Work packages in the area of CIIP are, for the most part, a natural continuation of work carried out as part of the work programme of 2010. More specifically, the objectives of this work stream are: to enhance the operational capabilities of Member States by helping relevant stakeholders to increase their level of efficiency and effectiveness; to support and promote exercises on a pan-European level; to identify and address the information security challenges in CIIP; to identify and address information security issues in ICT and Interconnected Networks; to support to the EU-U.S. Working Group on Cyber-security and Cyber-crime established in the context of the EU-U.S. summit;
- promoting privacy and trust: this part comprised of four work packages (WPK): (i) understanding and analysing economic incentives and barriers to information security ; (ii) ensuring that privacy, identity and trust are correctly integrated into new services; (iii) supporting the implementation of article 4 of the ePrivacy Directive (2002/58/EC); (iv) promoting the establishment of a European Cyber Security month.

The Agency also collaborated with Member States on the organisation of a European Cybersecurity month.

2011 discharge: European Network and Information Security Agency (ENISA)

The Committee on Budgetary Control adopted the report by Gerben-Jan GERBRANDY (ADLE, NL) on discharge to be granted to the Executive Director of the European Network and Information Security Agency (ENISA) in respect of the implementation of the Agencies budget for the financial year 2011.

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Agency for the financial year 2011 are reliable and that the underlying transactions are legal and regular, Members approve the closure of Agencies accounts. However, they make a number of recommendations that need to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#):

- Financing, budget and financial management: Members recall that the overall budget of the Agency for the year 2011 was EUR 8.1 million, which is slightly less than its budget for 2010. The initial contribution of the Union to the budget of the Agency amounted to

EUR 7.9 million.

- Implementation rate of appropriations and carryovers: Members state that appropriations were committed at a rate of 100%, while payments reached 85.82% of the total appropriations managed. They are concerned that, once again, the Court of Auditors reported 33% of carryovers from the Agency's operational budget. This situation may cause delays in the implementation of the Agency's activities.

Lastly, Members made a series of observations as regards the Agency's procurement and recruitment procedures.

It should also be noted that Members are concerned that the work of the Agency would be fragmented through a division of its headquarters between Athens and Heraklion, which would significantly increase the Agency's operational costs and contradict the principle of sound financial management by adding financial and administrative burdens. To recall, the construction of the Agency's brand new high-tech building in Heraklion was completed in 2011 with a cost of EUR 6 million. Members call for a cost-benefit analysis to be undertaken of the division of the Agency's headquarters and of the resulting parallel functioning in two cities.

2011 discharge: European Network and Information Security Agency (ENISA)

PURPOSE: to grant discharge to the European Network and Information Security Agency for the financial year 2011.

NON-LEGISLATIVE ACT: Decision 2013/590/EU of the European Parliament on discharge in respect of the implementation of the budget of the European Network and Information Security Agency for the financial year 2011.

CONTENT: with the present decision, and in accordance with Article 319 of the Treaty on the Functioning of the European Union (TFEU), the European Parliament grants discharge to the Executive Director of ENISA for the implementation of its budget for the financial year 2011.

This decision is in line with the European Parliament's resolution adopted on 17 April 2013 and comprises a series of observations that form an integral part of the discharge decision (please refer to the summary of the opinion of 17 April 2013).

A parallel decision, 2013/591/EU, adopted on the same day, approves the closure of this Agency's accounts for the 2011 financial year.

2011 discharge: European Network and Information Security Agency (ENISA)

The European Parliament adopted a decision on discharge to be granted to the Executive Director of the European Network and Information Security Agency (ENISA) in respect of the implementation of the Agency's budget for the financial year 2011. The vote on the decision to grant discharge covers the closure of the accounts (in accordance with Annex VI, Article 5(1) of the European Parliament's Rules of Procedure).

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Agency for the financial year 2011 are reliable and that the underlying transactions are legal and regular, Parliament adopted a resolution containing a number of recommendations that need to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#):

- Financing, budget and financial management: Parliament recalls that the overall budget of the Agency for the year 2011 was EUR 8.1 million, which is slightly less than its budget for 2010. The initial contribution of the Union to the budget of the Agency amounted to EUR 7.9 million.
- Implementation rate of appropriations and carryovers: it also states that appropriations were committed at a rate of 100%, while payments reached 85.82% of the total appropriations managed. It is concerned that, once again, the Court of Auditors reported 33% of carryovers from the Agency's operational budget. This situation may cause delays in the implementation of the Agency's activities.
- Seat: by 344 votes to 324, with 6 abstentions, Plenary did not accept the paragraph relating to the division of the Agency's headquarters between Athens and Heraklion. It expressed concerns as regards the financial impact of the eventual move.

Lastly, Parliament made a series of observations as regards the Agency's procurement and recruitment procedures.
