[Decision 2013/594](#)
[OJ L 308 16.11.2013, p. 0282](#) Summary

2011 discharge: European Securities and Markets Authority (ESMA)

PURPOSE: presentation by the Commission of the consolidated annual accounts of the European Union for the financial year 2011, as part of the 2011 discharge procedure.

Analysis of the accounts of the European Securities and Markets Authority (ESMA) new agency.

CONTENT: this Commission document sets out the consolidated annual accounts of the European Union for the financial year 2011 as prepared on the basis of the information presented by the institutions, organisations and bodies of the EU, in accordance with Article 129 (2) of the Financial Regulation applicable to the EU's General Budget, including the European Securities and Markets Authority (ESMA).

In 2011, the tasks and budget of this agency were as follows:

- description of ESMA's tasks: ESMA, which is located in Frankfurt, was set up by [Regulation \(EU\) No 1095/2010 of the European Parliament and of the Council](#) with a view to protecting the public interest by contributing to the short, medium and long-term stability and efficiency of the financial system for the economy of the European Union, its citizens and its companies;
- ESMA's budget for the 2011 financial year: ESMA's budget for 2011, as presented in the Commission document on the consolidated annual accounts of the European Union, gives the following figures:
 - § forecasted income budget: EUR 17 million;
 - § entitlements established: EUR 17 million;

2011 discharge: European Securities and Markets Authority (ESMA)

PURPOSE: presentation of the EU Court of Auditors report on the annual accounts of the European Securities and Markets Authority for the financial year 2011, together with the Authority's replies.

CONTENT: in accordance with the tasks conferred on the Court of Auditors by the Treaty on the Functioning of the European Union, the Court

presents to the European Parliament and to the Council, in the context of the discharge procedure, a Statement of Assurance as to the reliability of the annual accounts of each institution, body or agency of the EU, and the legality and regularity of the transactions underlying them, on the basis of an independent external audit.

This audit concerned, amongst others, the annual accounts of the European Securities and Markets Authority (ESMA).

In the Courts opinion, the Authoritys Annual Accounts fairly present, in all material respects, its financial position as of 31 December 2011 and the results of its operations and its cash flows for the year then ended, in accordance with the provisions of its Financial Regulation.

The Court also considers that the transactions underlying the annual accounts of the Authority for the financial year ended 31 December 2011 are, in all material respects, legal and regular.

The report confirms that the Authoritys 2011 budget amounted to EUR 16.9 million. The number of staff employed by the Authority at the end of the year was 57.

The report also makes a series of observations on the budgetary and financial management of the Authority, accompanied by the latters response. The main observations may be summarised as follows:

Courts comments:

- implementation rate: the Court states that the low budget execution rates indicate difficulties in budget planning and implementation. At the end of 2011, ESMA recorded a positive budget outturn of EUR 4.3 million. The full amount was then recorded in the accounts as a liability towards the European Commission;
- OLAF: ESMA had not yet reached an interinstitutional agreement with the European Anti-Fraud Office (OLAF) on fraud investigations. The Authority should ensure that its Financial Regulation is fully implemented in this respect;
- recruitment: the Court considers that the Authority needs to improve the transparency of recruitment procedures. The number of years of experience required for a given position was not respected, applications received after the deadline were accepted, questions for oral and written tests were not set before the applications were examined by the selection board and there was no decision of the Appointing Authority to appoint the selection board.

Authoritys replies:

- 2011 was ESMA's first year of operations, although its Founding Regulation had only been published on 15 December 2010. This late publication of the Regulation prevented ESMA from launching its recruitments on time, impacting directly its spending rate. Furthermore, most of ESMA's IT objectives/ projects were delayed due to delays in the legislation requiring the implementation of such systems;
- as regards OLAF, ESMA states that it sent a letter to OLAF containing its Management Boards approved anti-fraud rules in order to begin setting up this agreement. OLAF has not responded to date;
- on recruitment, following the first visit of the Court of Auditors in October 2011, ESMA revised its recruitment procedures to address the mentioned issues in February 2012.

Lastly, the Court of Auditors report contains a summary of the Authoritys activities in 2011. This is focused on the following:

- 15 credit rating agencies (CRAs) registered and first on-site inspections of CRAs including Fitch, Moody's and Standard & Poors;
- assessed the compliance of three new proposals for Markets in Financial Instruments Directive (MiFID) pre-trade transparency waivers;
- continued work on commodities and on MiFID review;
- preparatory work for proposed technical standards for the regulation on OTC derivatives, Central Clearing Counterparties (CCPs) and Trade Repositories (European Market Infrastructure Regulation - EMIR);
- joint work with the other ESAs;
- enhanced financial consumer protection through additional rules and requirements for intermediaries and fund managers;
- first pan-European product warning on foreign exchange to investors;
- developed successful IT solution for the publication of CRA historical ratings;
- conducted two peer reviews on market abuse and prospectus.

2011 discharge: European Securities and Markets Authority (ESMA)

The Committee on Budgetary Control adopted the report by Gerben-Jan GERBRANDY (ADLE, NL) on discharge to be granted to the Director of the European Securities and Markets Authority in respect of the implementation of the budget for the financial year 2011.

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Authority for the financial year 2011 are reliable and that the underlying transactions are legal and regular, Members approve the closure of the Authoritys accounts. However, they make a number of recommendations that need to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#):

- Financing, budget and financial management: in accordance with its Founding Regulation, 60% of the 2011 budget was financed by contributions from the Member States and the European Free Trade Association (EFTA) countries, and 40% was financed by the Union budget. They note that at the end of 2011, the Authority recorded a positive budget outturn of EUR 4 457 244,822, which was then recorded in the accounts as a liability towards the Commission. The Commission is called upon to explore all the options for a new long term sustainable financing of the Authority that safeguards its independence. Given that the Authority is an integral part of the European System of Financial Supervisors and works in close cooperation with its sister authorities, the European Banking Authority and the European Insurance and Occupational Pensions Authority, within a Joint Committee, and with the European Systemic Risks Board, Members call on the Commission to evaluate the possibility of coming up with a proposal ensuring that the budgets of the three European Supervisory Authorities (ESAs) are fully funded by the Union budget.
- Implementation rate of appropriations: Members recall that according to the Court, the Authority registered a budget execution ratio of 75.7% for commitments and 62.5% for payments at the end of 2011. Members call on the Authority to inform the discharge authority of the actions taken to improve that ratio, as the low execution ratio shows difficulties in budget planning and implementation. The report

notes that according to the Authority, the above mentioned issues and the limited preparation time setting up its operations explain the budgetary under spending in 2011.

Lastly, Members made a series of observations as regards the accounting and control systems, procurement and recruitment procedures of this Agency.

2011 discharge: European Securities and Markets Authority (ESMA)

The European Parliament adopted a decision on discharge to be granted to the Director of the European Securities and Markets Authority for the financial year 2011. The vote on the decision to grant discharge covers the closure of the accounts (in accordance with Annex VI, Article 5(1) of the European Parliaments Rules of Procedure).

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Authority for the financial year 2011 are reliable and that the underlying transactions are legal and regular, Parliament adopted a resolution containing a number of recommendations that need to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#).

- Financing, budget and financial management: in accordance with its Founding Regulation, 60% of the 2011 budget was financed by contributions from the Member States and the European Free Trade Association (EFTA) countries, and 40% was financed by the Union budget. - Implementation rate of appropriations: Parliament recalls that according to the Court, the Authority registered a budget execution ratio of 75.7% for commitments and 62.5% for payments at the end of 2011. Parliament calls on the Authority to inform the discharge authority of the actions taken to improve that ratio, as the low execution ratio shows difficulties in budget planning and implementation. Noting that the Authority was still in its launch period, Parliament highlights these problems of budgetary planning and the justification of certain expenses.
- Recruitment procedures: Parliament calls on the Authority to inform the discharge authority of which further actions it has taken to improve the recruitment procedures. It also encourages the Commission to allow for a certain degree of simplification of the Staff Regulations.

Lastly, Parliament makes a series of observations as regards the accounting and control systems of this Agency.
