[Decision 2013/582](#)
[OJ L 308 16.11.2013, p. 0248](#) Summary

2011 discharge: European Institute of Innovation and Technology (EIT)

PURPOSE: presentation by the Commission of the consolidated annual accounts of the European Union for the financial year 2011, as part of the 2011 discharge procedure.

Analysis of the accounts of the European Institute of Innovation and Technology (EIT).

CONTENT: this Commission document sets out the consolidated annual accounts of the European Union for the financial year 2011 as prepared on the basis of the information presented by the institutions, organisations and bodies of the EU, in accordance with Article 129 (2) of the Financial Regulation applicable to the EU's General Budget, including the European Institute of Innovation and Technology (EIT).

In 2011, the tasks and budget of this agency were as follows:

- description of the EIT's tasks: the EIT, which is located in Budapest, was set up by [Regulation \(EC\) No 294/2008 of the European Parliament and of the Council](#) with a view to increasing Europe's economic growth and sustainable competitiveness by enhancing Member States and the Unions innovative capacity. It seeks to achieve this goal by encouraging and integrating higher education, research and innovation of the highest standards.
- The EIT's budget for the 2011 financial year: the EIT's budget for 2011, as presented in the Commission document on the consolidated annual accounts of the European Union, gives the following figures:
 - § forecasted income budget: EUR 16 million;
 - § entitlements established: EUR 10 million;
 - § amounts received: EUR 10 million;
 - § outstanding: EUR 0 million.

The complete version of the EIT's final accounts may be found at the following address: <http://eit.europa.eu/about-us/budget-finance/finance/>

2011 discharge: European Institute of Innovation and Technology (EIT)

PURPOSE: presentation of the EU Court of Auditors report on the annual accounts of the European Institute of Innovation and Technology for the financial year 2011, together with the Institutes replies.

CONTENT: in accordance with the tasks conferred on the Court of Auditors by the Treaty on the Functioning of the European Union, the Court presents to the European Parliament and to the Council, in the context of the discharge procedure, a Statement of Assurance as to the reliability of the annual accounts of each institution, body or agency of the EU, and the legality and regularity of the transactions underlying them, on the basis of an independent external audit.

This audit concerned, amongst others, the annual accounts of the European Institute of Innovation and Technology (EIT).

In the Courts opinion, the Institutes Annual Accounts fairly present, in all material respects, its financial position as of 31 December 2011 and the results of its operations and its cash flows for the year then ended, in accordance with the provisions of its Financial Regulation.

The Court also considers that the transactions underlying the annual accounts of the Institute for the financial year ended 31 December 2011 are, in all material respects, legal and regular.

The report confirms that the Institutes 2011 budget amounted to EUR 65.85 million and that the number of staff employed by the Institute at the end of the year was 40.

The report also makes a series of observations on the budgetary and financial management of the Institute, accompanied by the latters response. The main observations may be summarised as follows:

Courts comments:

- budget execution: the Court notes that the rate of execution of the Institutes budget for the audited period of financial autonomy was low;
- grants: grant agreements resulting in payments in 2011 were systematically signed by the European Commission (Directorate General for Education and Culture) and the Institute after most of the activities had already been implemented. Between September and December 2011, the Institute made final payments, amounting to EUR 4.2 million, related to three grant agreements that were signed well after the start of activities. This is an issue in terms of good financial management.

Institutes replies:

- the Institute states that there is a seasonal distribution of expenditures particularly as regards grants. Grant agreements were concluded at the beginning of the year, and consequently the pre-financing payments were executed prior to the Institutes financial autonomy. As grants represent about 90 % of the Institutes budget, their impact on budget execution is significant. Execution rates are considerably higher for the entire calendar year than for the audited period of financial autonomy. However, in order to improve budget execution, the Institute has introduced a monthly reporting on budget implementation and a review process for assessing in detail the implementation of the budget and the EIT work programme, thereby formulating corrective and reorientation actions in due course if needed, through the year;
- EIT acknowledges the Court comment and is committed to decrease the gap between the starting date of the grant agreements and the date of signature.

Lastly, the Court of Auditors report contains a summary of the Institutes activities in 2011. This is focused on the following:

- organisation of the first EITs Vision for the Future stakeholder conference in Budapest (HU) on 14 April 2011;
- submission of the Institutes Draft Strategic Innovation Agenda (SIA) to the European Commission on 15 June 2011;
- participation of the Director of the Institute in the Friends of EIT event hosted by the European Parliament with Commissioner Vassiliou and knowledge and innovation communities (KIC) CEOs on 21 September 2011;
- organisation of the first Youth and Entrepreneurship conference in Kraków (PL);
- first forum held in Budapest on 11 November 2011;
- joint contribution by the Chairman of the Institutes Governing Board, the Institutes Director and KIC CEOs at the 1st Innovation Convention organised by the European Commission, 5-6 December 2011;
- the number of KIC partners has increased steadily, from 75 in 2010 to around 400 in 2012. The Institutes total contribution is around EUR 160 million (slightly less than 25% of the KICs total budget) for the period 2010-2012.

2011 discharge: European Institute of Innovation and Technology (EIT)

Having examined the revenue and expenditure accounts for the financial year 2011 and the balance sheet at 31 December 2011 of the European Institute of Innovation and Technology, as well as the Court of Auditors' report on the annual accounts of the Institute for the financial year 2011, accompanied by the Institute's replies to the Court's observations, the Council recommends the European Parliament to give a discharge to the Executive Director of the Institute in respect of the implementation of the budget for the financial year 2011.

The observations in the Court of Auditors' report in relation to the financial year 2011 call for some comments by the Council, which may be summarised as follows:

- the Council welcomes the Court's opinion that, in all material respects, the Institute's annual accounts present fairly its financial position as at 31 December 2011 and the results of its operations and its cash flows for the year then ended, in accordance with the provisions of the Institute's Financial Regulation, and that the underlying transactions for that financial year are legal and regular;
- nevertheless, the Council notes with concern that the Institute's budget was significantly overestimated and that the rate of execution was low, in particular as regards staff expenditure. It urges the Institute to adopt a more realistic approach when planning its budget.

2011 discharge: European Institute of Innovation and Technology (EIT)

The Committee on Budgetary Control adopted the report by Gerben-Jan GERBRANDY (ADLE, NL) on discharge to be granted to the Director of the European Institute of Innovation and Technology in respect of the implementation of the budget for the financial year 2011.

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Authority for the financial year 2011 are reliable and that the underlying transactions are legal and regular, Members approve the closure of the Institutes accounts. However, they make a number of recommendations that need to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#):

- Financing, budget and financial management: Members recall that accordance with its Foundation Regulation, the Institute's 2011 budget was financed by a subsidy granted by the Union, a contribution granted by the European Free Trade Association (EFTA) countries and a contribution granted by the host Member State. The Institute's overall budget for 2011 amounted to EUR 64 294 640.
- Implementation rate of appropriations: Members take note that the execution rate for the period of financial autonomy stands at 92.81% for commitment appropriations, 24.70% for payment appropriations against commitment and 11.48% for payment against the commitment. They call on the Institute to inform the discharge authority of the actions it will take to address this deficiency as the low execution rates show difficulties in budget planning and implementation. Members also observe that a high level of payment appropriations was carried over non-automatically from 2011 to 2012.

Lastly, Members made a series of observations as regards the accounting systems, procurement and recruitment procedures of this Agency.

2011 discharge: European Institute of Innovation and Technology (EIT)

PURPOSE: to grant discharge to the European Institute of Innovation and Technology for the financial year 2011.

NON-LEGISLATIVE ACT: Decision 2013/582/EU of the European Parliament on discharge in respect of the implementation of the budget of the European Institute of Innovation and Technology for the financial year 2011.

CONTENT: with the present decision, and in accordance with Article 319 of the Treaty on the Functioning of the European Union (TFEU), the European Parliament grants discharge to the Director of the European Institute of Innovation and Technology in respect of its budget for the financial year 2011.

This decision is in line with the European Parliament's resolution adopted on 17 April 2013 and comprises a series of observations that form an integral part of the discharge decision (please refer to the summary of the opinion of 17 April 2013).

A parallel decision, 2013/583/EU, adopted on the same day, approves the closure of the Institutes accounts for the 2011 financial year.

2011 discharge: European Institute of Innovation and Technology (EIT)

The European Parliament adopted a decision on discharge to be granted to the Director of the European Institute of Innovation and Technology for the financial year 2011. The vote on the decision to grant discharge covers the closure of the accounts (in accordance with Annex VI, Article 5(1) of the European Parliaments Rules of Procedure).

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Institute for the financial year 2011 are reliable and that the underlying transactions are legal and regular, Parliament adopted a resolution containing a number of recommendations that need to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#).

- Financing, budget and financial management: Parliament recalls that accordance with its Foundation Regulation, the Institute's 2011 budget was financed by a subsidy granted by the Union, a contribution granted by the European Free Trade Association (EFTA) countries and a contribution granted by the host Member State. The Institute's overall budget for 2011 amounted to EUR 64 294 640.
- Implementation rate of appropriations: Parliament takes note that the execution rate for the period of financial autonomy stands at 92.81% for commitment appropriations, 24.70% for payment appropriations against commitment and 11.48% for payment against the commitment. It calls on the Institute to inform the discharge authority of the actions it will take to address this deficiency as the low execution rates show difficulties in budget planning and implementation. It also observes that a high level of payment appropriations was carried over non-automatically from 2011 to 2012.
- Recruitment procedures: Parliament notes that by the end of 2011, 40 posts (23 temporary agents and 17 contract agents) had been filled, which shows an increase of 66 %, compared to 24 posts filled by the end of 2010.

Lastly, Parliament makes a series of observations as regards the accounting systems of this Agency.
