Final act

Budget 2014/581
[OJ L 266 05.09.2014, p. 0211](#) Summary

2012 discharge: European Fisheries Control Agency (EFCA)

PURPOSE: presentation by the Commission of the consolidated annual accounts of the European Union for the financial year 2012, as part of the 2012 discharge procedure.

Analysis of the accounts of the European Fisheries Control Agency (EFCA) formerly known as the CFCA.

CONTENT: this Commission document sets out the consolidated annual accounts of the European Union for the financial year 2012 as prepared on the basis of the information presented by the institutions, organisations and bodies of the EU, in accordance with Article 129 (2) of the Financial Regulation applicable to the EU's General Budget, including the European Fisheries Control Agency (EFCA).

In 2012, the tasks and budget of this agency were as follows:

- description of EFCA's tasks: the agency, which is located in Vigo, was created by [Council Regulation \(EC\) No 768/2005](#) and its main task is to organise the operational coordination of fisheries control and inspection activities by the Member States in order to ensure effective and uniform application of the rules of the common fisheries policy;
- EFCA's budget for the 2012 financial year: the Agency's budget for 2012, as presented in the Commission document on the consolidated annual accounts of the European Union, gives the following figures:

§ Commitment appropriations :

- committed : EUR 9 million;
- paid : EUR 9 million;
- carried-over : 0.

§ Payment appropriations :

- committed : EUR 11 million;
- paid : EUR 10 million;
- carried-over : EUR 1 million.

Please refer also to the [final accounts of the EFCA](#).

2012 discharge: European Fisheries Control Agency (EFCA)

PURPOSE: presentation of the EU Court of Auditors report on the annual accounts of the European Fisheries Control Agency (EFCA) for the year 2012, together with the Agency's reply.

CONTENT: in accordance with the tasks conferred on the Court of Auditors by the Treaty on the Functioning of the European Union, the Court presents to the European Parliament and to the Council, in the context of the discharge procedure, a Statement of Assurance as to the reliability of the annual accounts of each institution, body or agency of the EU, and the legality and regularity of the transactions underlying them, on the basis of an independent external audit.

This audit concerned, amongst others, the annual accounts of the European Fisheries Control Agency (EFCA).

In the Court's opinion, the European Fisheries Control Agency's Annual Accounts fairly present, in all material respects, its financial position as of 31 December 2012 and the results of its operations and its cash flows for the year then ended, in accordance with the provisions of its Financial Regulation and the accounting rules adopted by the Commission's accounting officer.

The Court also considers that the transactions underlying the annual accounts of the Agency for the financial year ended 31 December 2012 are, in all material respects, legal and regular.

The report confirms that the Agency's 2012 budget amounted to EUR 9.22 million.

The report also makes a series of observations on the budgetary and financial management of the Agency, accompanied by the Agency's response. The main observations may be summarised as follows:

The Court's observations:

- budgetary management: the Court notes that the high level of committed appropriations carried over to 2013 was caused, to a large extent, by events beyond the Agency's control, such as the late invoicing of the 2012 office rental costs by the Spanish authorities. On operational expenditure, an important reason for the high level of carry-overs was the considerable workload faced by the Agency as a result of the large number of IT projects that were either launched or ongoing during 2012. This workload had an impact on the timeliness of procurement procedures in the case of two IT projects launched in 2012.

The Agency's reply:

- carry-overs: the Agency indicates careful consideration will be given to each new project with a view to optimising its lifecycle, in order to avoid carryover of significant amounts.

Lastly, the Court of Auditors report contains a summary of the Agency's activities in 2012. This is focused on implementation of the Joint Deployment Plan cod fishery in the North Sea,

Skagerrak, Kattegat and the Eastern Channel and Western Waters and JDP cod and salmon fisheries in the Baltic Sea. The Agency also carried out:

- mapping study on information systems supporting fisheries controls in the EU ;
- operation, maintenance, enhancement and development of ICT monitoring capabilities: Vessel Monitoring System (VMS), Electronic Reporting System (ERS), Fishnet ;
- support activities to fight illegal unreported and unregulated fisheries.

2012 discharge: European Fisheries Control Agency (EFCA)

The Committee on Budgetary Control adopted the report by Petri SARVAMAA (EPP, FI) in which it recommended the European Parliament to grant discharge to the Executive Director of the European Fisheries Control Agency in respect of the implementation of the Agency's budget for the financial year 2012.

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Agency for the financial year 2012 are reliable, and that the underlying transactions are legal and regular, Members approved the closure of the Agency's accounts. They made, however, a number of recommendations that needed to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#).

- Budget and financial management: Members noted that budget monitoring efforts during the financial year 2012 resulted in a budget implementation rate of 96% and that the payment appropriations execution rate was 83%.
- Commitments and carryovers: Members noted, however, that the level of committed appropriations carried over to 2013 was high for administrative expenditure at 35% and operating expenditure at 46%. This was due to a large extent by events beyond the Agency's control, such as the late invoicing of the 2012 office rental costs by the Spanish authorities. An other important reason for the high level of carry-overs was the considerable workload faced by the agency as a result of the large number of IT projects that were either launched or ongoing in 2012 and this workload had an impact on the timeliness of procurement procedures in the case of two IT projects launched in 2012.

Members also made a series of observations on transfers, procurement and recruitment procedures as well as comments on internal controls.

Lastly, they acknowledged that the Agency will assess its policy on the prevention and management of conflicts of interests on the basis of the Commission's Guidelines on the Prevention and Management of Conflicts of Interests in EU Decentralised Agencies. They called on the Agency to inform the discharge authority of the assessment results once available.

2012 discharge: European Fisheries Control Agency (EFCA)

The European Parliament adopted a decision concerning the discharge to be granted to the Executive Director of the European Fisheries Control Agency in respect of the implementation of the Agency's budget for the financial year 2012. The vote on the discharge decision approved the closure of the accounts (in accordance with Annex VI, Article 5(1) of the Rules of Procedure of the European Parliament).

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Agency for the financial year 2012 are reliable, and that the underlying transactions are legal and regular, Parliament adopted by 510 votes to 66, with 16 abstentions, a resolution containing a series of recommendations that form an integral part of the discharge decision and as well as the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#).

These recommendations are summarised as follows:

- Budget and financial management: Parliament noted that budget monitoring efforts during the financial year 2012 resulted in a budget implementation rate of 96% and that the payment appropriations execution rate was 83%.
- Commitments and carryovers: it noted, however, that the level of committed appropriations carried over to 2013 was high for administrative expenditure at 35% and operating expenditure at 46%. This was due to a large extent by events beyond the Agency's control, such as the late invoicing of the 2012 office rental costs by the Spanish authorities. An other important reason for the high level of carry-overs was the considerable workload faced by the agency as a result of the large number of IT projects that were either launched or ongoing in 2012 and this workload had an impact on the timeliness of procurement procedures in the case of two IT projects launched in 2012.
- Performance: Parliament requested that the Agency communicate the results and impact its work has on European citizens in an accessible way, mainly through its website.

It also made a series of observations on transfers, procurement and recruitment procedures as well as comments on internal controls.

Lastly, Parliament acknowledged that the Agency will assess its policy on the prevention and management of conflicts of interests on the basis of the Commission's Guidelines on the Prevention and Management of Conflicts of Interests in EU Decentralised Agencies. It called on the Agency to inform the discharge authority of the assessment results once available.

2012 discharge: European Fisheries Control Agency (EFCA)

PURPOSE: to grant discharge to the Community Fisheries Control Agency (CFCA) for the financial year 2012.

NON-LEGISLATIVE ACT: Decision 2014/581/EU of the European Parliament on discharge in respect of the implementation of the budget of the CFCA for the financial year 2012.

CONTENT: with the present decision, the European Parliament grants discharge to the Executive Director of the CFCA for the implementation of its budget for the financial year 2012.

This decision is in line with the European Parliament's resolution adopted on 3 April 2014 and comprises a series of observations that form an integral part of the discharge decision (please refer to the summary of the opinion of 3 April 2014).

Amongst the main observations made, Parliament called on the Agency to reduce the amount of carry-overs which were particularly high in 2012 (carry-overs 2012 to 2013).
