Final act

Budget 2015/1671
[OJ L 255 30.09.2015, p. 0291](#) Summary

2013 discharge: European Railway Agency (ERA)

PURPOSE: presentation of the EU Court of Auditors report on the annual accounts of the European Railway Agency (ERA) for the year 2013, together with the Agency's reply.

CONTENT: in accordance with the tasks conferred on the Court of Auditors by the Treaty on the Functioning of the European Union, the Court presents to the European Parliament and to the Council, in the context of the discharge procedure, a Statement of Assurance as to the reliability of the annual accounts of each institution, body or agency of the EU, and the legality and regularity of the transactions underlying them, on the basis of an independent external audit.

This audit concerned, amongst others, the annual accounts of the European Railway Agency (ERA).

Statement of assurance: pursuant to the provisions of Article 287 of the Treaty on the Functioning of the European Union (TFEU), the Court has audited:

- the annual accounts of the Agency, which comprise the financial statements and the reports on the implementation of the budget for the financial year ended 31 December 2013;
- the legality and regularity of the transactions underlying those accounts.

Opinion on the reliability of the accounts: in the Court's opinion, the Agency's annual accounts present fairly, in all material respects, its financial position as at 31 December 2013 and the results of its operations and its cash flows for the year then ended, in accordance with the

provisions of its Financial Regulation and the accounting rules adopted by the Commissions accounting officer.

Opinion on the legality and regularity of the transactions underlying the accounts: in the Courts opinion, the transactions underlying the annual accounts for the year ended 31 December 2013 are legal and regular in all material respects.

The report also makes a series of observations on the budgetary and financial management of the Agency, accompanied by the latters response. The main observations may be summarised as follows:

The Courts observations:

- internal controls: the Court considered that there is room to improve the accuracy and documentation of information used in the Agencys procurement procedures;
- recruitment: at the end of 2013, 136 temporary employees were working for the Agency. In 2013 the Agency adopted a new decision in agreement with its Administrative Board and the Commission, according to which temporary employees can have indefinite contracts. The proposal for a revised founding regulation for ERA includes similar provisions but it is unclear if and when this will be adopted;
- double headquarters: the Agency is located in Lille and Valenciennes. As the Court mentioned in its Specific Annual Report for the financial year 2006, it is likely that costs could be reduced if all operations were centralised in one location. This might also facilitate a comprehensive seat agreement with the host Member State thereby clarifying the conditions under which the Agency and its staff operate.

The Agencys reply:

- internal controls: the Agency has taken good note of the remark of the Court and will review its procurement procedure;
- recruitment: it has taken note of the comments of the Court;
- double headquarters: the Agency has regular contacts with the host Member State about a seat agreement. However, the French authorities have so far taken the view that the Protocol on Privileges and Immunities applies and that is sufficient for the Agency.

Lastly, the Court of Auditors report contains a summary of the Agencys activities in 2013. This is focused on:

Budget: EUR 25.8 million.

Activities:

- follow-up activities, modifications of the texts, dissemination and monitoring activities in relation to the Single Safety Certificate;
- evaluation of the effectiveness and practical implementation of measures through the Joint Network Secretariat;
- development of a Single Safety Certificate Regime;
- implementation of a common template based on the relevant Directives and Commission Recommendation 2011/217/EU (known as DV29) to be used by the Member States to document the authorisation process applied;
- completion of the drafting of almost all the Technical Specifications for Interoperability (TSIs) applicable to the entire EU railway network;
- reports on railway safety and interoperability;
- various recommendations on safety assessment and reporting in the Member States;
- setting up and maintaining a series of registers for safety and interoperability;
- guidance, support and advice to the rail sector and Member States;
- cooperation with the TEN-T Executive Agency in evaluating specific ERTMS projects.

2013 discharge: European Railway Agency (ERA)

PURPOSE: presentation by the Commission of the consolidated annual accounts of the European Union for the financial year 2013, as part of the 2013 discharge procedure.

Analysis of the accounts of the European Railway Agency (ERA).

CONTENT: this Commission document sets out the consolidated annual accounts of the European Union for the financial year 2013 as prepared on the basis of the information presented by the institutions, organisations and bodies of the EU, in accordance with Article 129 (2) of the Financial Regulation applicable to the EU's General Budget, including the European Railway Agency (ERA).

The document contains the figures on which the discharge procedure is based.

Discharge procedure of the EU agencies: the EU Budget finances a wide range of policies and programmes throughout the EU. In accordance with the priorities set by the European Parliament and the Council in the multi-annual financial framework (MFF), the European Commission carries out specific programmes, activities and projects in the field with the technical support of some specialised agencies.

The consolidated annual accounts of the EU provide information on the activities of the institutions, agencies and other bodies of the EU from a budgetary and accrual accounting perspective.

The consolidated reports on the implementation of the general budget of the EU include the budget implementation of all Institutions. Agencies do not have a separate budget inside the EU budget; and they are partially financed by a Commission budget subsidy.

Each agency is subject to its own discharge procedure.

ERA: in 2013, the tasks and budget of this agency were as follows:

- description of ERA's tasks: ERA, which is located in Lille-Valenciennes, was created by [Regulation \(EC\) No 881/2004 of the European Parliament and of the Council](#). Its aim is to : (i) enhance the level of interoperability of railway systems and; (ii) develop a common approach to safety in order to contribute to creating a more competitive European railway sector with a high level of safety;
- ERA's budget for the 2013 financial year: the Agencys budget for 2013, as presented in the Commission document on the consolidated annual accounts of the European Union, gives the following figures:

- § Commitment appropriations :
- committed : EUR 26 million;
 - paid : EUR 25 million;
 - carried-over : 0.
- § Payment appropriations :
- committed : EUR 28 million;
 - paid : EUR 25 million;
 - carried-over : EUR 2 million.

Please refer also to the [final accounts of the ERA](#).

2013 discharge: European Railway Agency (ERA)

The Committee on Budgetary Control adopted the report by Ryszard CZARNECKI (ECR, PL)) on discharge in respect of the implementation of the budget of the European Railway Agency (ERA) for the financial year 2013.

The committee recommended that the European Parliament grant the Executive Director of the Agency discharge in respect of the implementation of the Agency's budget for the financial year 2013.

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Agency for the financial year 2013 are reliable, and that the underlying transactions are legal and regular, Members called on the Parliament to approve the closure of the Agency's accounts. They made, however, a number of recommendations that needed to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#).

- Centres financial statements: Members noted that the final budget of the Agency for the financial year 2013 was EUR 25 858 799 representing an increase of 0.23 % compared to 2012.
- Commitments and carry-overs: Members noted that budget monitoring efforts during the financial year 2013 resulted in a budget implementation rate of 97.87% and that the payment appropriations execution rate was 88.12%. They pointed out, however, that the level of committed appropriations carried over to 2013 was EUR 2 398 742, and committed appropriations carried over to 2014 amounted to EUR 2 221 816. The decrease in the accrued amount carried over in comparison to the previous year occurred because of the underestimation/overestimation of the 2013 budgetary expenses.

Members also made a series of observations on transfers, procurement and recruitment procedures, and internal audit, and the prevention and management of conflicts of interests.

The committee expressed its deep disappointment that the Agency had still not adopted a clear, comprehensive and objective policy for the prevention and management of conflicts of interests, despite the discharge authority and the Courts special recommendations for consecutive years.

Lastly, Members deplored the fact that the use of two locations (Lille and Valenciennes) to carry out its activities exposed the Agency to additional costs. They acknowledged the efforts made by the Agency to minimise the negative impact of the decision on its seat but called for a single location for the Agency, in a place easily accessible by public transport in order to save scarce resources.

2013 discharge: European Railway Agency (ERA)

PURPOSE: to grant discharge to the European Railway Agency for the financial year 2013.

NON LEGISLATIVE ACT: Decision (EU) 2015/1671 of the European Parliament on discharge in respect of the implementation of the budget of the European Railway Agency for the financial year 2013.

CONTENT: with the present decision, the European Parliament grants discharge to the Executive Director of the European Railway Agency for the implementation of its budget for the financial year 2013.

This decision is in line with the European Parliament's resolution adopted on 29 April 2015 and comprises a series of observations that form an integral part of the discharge decision (please refer to the summary of the opinion of 29 April 2015).

Amongst Parliament's main observations, it deplored the fact that the use of two locations (Lille and Valenciennes) to carry out its activities exposed the Agency to additional costs. It called for a single location for the Agency, in a place easily accessible by public transport.

2013 discharge: European Railway Agency (ERA)

The European Parliament adopted by 550 votes to 131, with 4 abstentions, a decision to grant discharge to the Executive Director of the European Railway Agency (ERA) for the financial year 2013. The vote on the discharge decision approved the closure of the accounts (in accordance with Annex VI, Article 5(1) of the Rules of Procedure of the European Parliament).

Noting that the Court of Auditors stated that it has obtained reasonable assurances that the annual accounts of the Agency for the financial year 2013 are reliable, and that the underlying transactions are legal and regular, Parliament adopted by 563 votes to 107, with 15

abstentions, a resolution containing a number of recommendations that form an integral part of the discharge decision and as well as the general recommendations that appear in [the resolution on performance, financial management and control of EU agencies](#):

- Centres financial statements: Parliament noted that the final budget of the Agency for the financial year 2013 was EUR 25 858 799 representing an increase of 0.23% compared to 2012.
- Commitments and carry-overs: Parliament also noted that budget monitoring efforts during the financial year 2013 resulted in a budget implementation rate of 97.87% and that the payment appropriations execution rate was 88.12%. It pointed out, however, that the level of committed appropriations carried over to 2013 was EUR 2 398 742, and committed appropriations carried over to 2014 amounted to EUR 2 221 816. The decrease in the accrued amount carried over in comparison to the previous year occurred because of the underestimation/overestimation of the 2013 budgetary expenses.

Parliament also made a series of observations on transfers, procurement and recruitment procedures, and internal audit, and the prevention and management of conflicts of interests.

It expressed its deep disappointment that the Agency had still not adopted a clear, comprehensive and objective policy for the prevention and management of conflicts of interests, despite the discharge authority and the Courts special recommendations for consecutive years.

Parliament deplored the fact that the use of two locations (Lille and Valenciennes) to carry out its activities exposed the Agency to additional costs. It acknowledged the efforts made by the Agency to minimise the negative impact of the decision on its seat but called for a single location for the Agency, in a place easily accessible by public transport in order to save scarce resources.

Additional funding: lastly, Parliament stated that if the Agency is to receive new powers as a result of the extension of its tasks as a certifying agency for railway material, part of the funding for the Agency should come from fees and charges levied on the railway industry which must, in all circumstances, be appropriate to the level of expenses incurred by the Agency and must not represent a disproportionate cost for the railway industry.
