## Mobilisation of the European Globalisation Adjustment Fund: redundancies in the manufacturing of machinery in Belgium

**PURPOSE:** to mobilise the European Globalisation Adjustment Fund (EGF) to assist Belgium following redundancies in the sector of machinery manufacturing.

**PROPOSED ACT:** Decision of the European Parliament and of the Council.

**CONTENT:** Article 12 of Council Regulation (EU, Euratom) No 1311/2013 laying down [the multiannual financial framework for the years 2014-2020](#) provides that the EGF shall not exceed a maximum annual amount of EUR 150 million (2011 prices) over and above the relevant headings of the financial framework.

The rules applicable to financial contributions from the European Globalisation Adjustment Fund (EGF) are laid down in [Regulation \(EU\) No 1309/2013](#) of the European Parliament and of the Council on the European Globalisation Adjustment Fund (2014-2020) and repealing [Regulation \(EC\) No 1927/2006](#) (the 'EGF Regulation').

In this context, the Commission examined the application for mobilisation of the EGF to assist Belgium and concluded the following:

Belgium: EGF/2014/011 BE/Caterpillar: the Belgian authorities submitted application EGF/2014/011 BE/Caterpillar for a financial contribution from the EGF, following redundancies in Caterpillar Belgium S.A. in Belgium.

The Belgian authorities submitted the application within 12 weeks of the date on which the intervention criteria set out below were met. The deadline expired on 9 December 2014.

In order to establish the link between the redundancies and cessations of activity and major structural changes in world trade patterns due to globalisation, Belgium states that Caterpillar has been strongly affected by declining demands for this type of products in Europe, which has led to the delocalisation to third countries of substantial production capacity. Caterpillar's Gosselies plant specialises in car assembly, production of components, soldered assemblies and structures. Its products are exclusively directed at the European construction and mining sectors. These trends have resulted in falling market shares for the Caterpillar Gosselies production facility and a declining competitiveness towards competitors in other parts of the world.

Since 2007, the Caterpillar Group has established plants in emerging economies in Asia and Latin America, and its growth is mainly linked to these markets. In particular, Asia's share of Caterpillar's sales has more than doubled between 2007 and 2013. This is linked to the overall growth of the Asian economies, especially in China and India, and the construction industry in these countries. On the other hand, the main market for Caterpillar Gosselies, the European Union, is depending on public and private investments in infrastructure in Europe which have recently been reduced. This helps explain that an already decreasing amount of new orders plummeted further by 40 % in 2011, according to the Belgian authorities.

To date, the 'Manufacture of machinery and equipment n.e.c' sector has been the subject of 12 EGF applications, 6 of which were based on trade related globalisation and 6 on the global financial and economic crisis.

Basis of the Belgian application: the Belgian authorities submitted the application under the intervention criteria of Article 4(1)(a) of the EGF Regulation, which requires at least 500 workers being made redundant or self-employed persons' activity ceasing, over a reference period of four months in an enterprise in a Member State.

The application relates to 663 workers made redundant in the enterprise during the reference period from 1 January 2014 to 30 April 2014.

On the basis of the application from Belgium, the proposed contribution from the EGF to the coordinated package of personalised services is EUR 1 222 854.

FINANCIAL IMPLICATION: having examined the application in respect of the conditions set out in Article 13(1) of the EGF Regulation, and having taken into account the number of targeted beneficiaries, the proposed actions and the estimated costs, the Commission proposes to mobilise the EGF for the amount of EUR 1 222 854, representing 60 % of the total costs of the proposed actions, in order to provide a financial contribution for the application.

The proposed decision to mobilise the EGF will be taken jointly by the European Parliament and the Council, as laid down in point 13 of the [Interinstitutional Agreement](#) of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management.

At the same time as it presents this proposal for a decision to mobilise the EGF, the Commission will present to the European Parliament and to the Council a proposal for a transfer to the relevant budgetary line for the amount requested.

At the same time as it adopts this proposal for a decision to mobilise the EGF, the Commission will adopt a decision on a financial contribution, by means of an implementing act, which will enter into force on the date at which the European Parliament and the Council adopt the proposed decision to mobilise the EGF.

## Mobilisation of the European Globalisation Adjustment Fund: redundancies in the manufacturing of machinery in Belgium

---

The Committee on Budgets adopted the report by Anneli JÄÄTTEENMÄKI (ADLE, FI) on the proposal for a decision of the European Parliament and of the Council on the mobilisation of the European Globalisation Adjustment Fund for an amount of EUR 1 222 854 in commitment and payment appropriations to assist Belgium affected by redundancies in the manufacturing of machinery sector.

Members recalled that the Union set up legislative and budgetary instruments to provide additional support to workers who are suffering from the consequences of major structural changes in world trade patterns and to assist their reintegration into the labour market.

Belgian application: Belgium submitted application EGF/2014/011 BE/Caterpillar for a financial contribution from the EGF, following 1030 redundancies in Caterpillar Belgium S.A. a company operating in the NACE 2 Division 28 'Manufacture of machinery and equipment n.e.c', with 630 persons expected to participate in the measures, during and after the reference period from 1 January 2014 to 30 April 2014, linked to a decline in demand in Europe. They noted that the conditions set out in Article 4(1)(a) of the EGF Regulation are met. Therefore, Belgium is entitled to a financial contribution under that Regulation.

Members welcomed the fact that, in order to provide workers with speedy assistance, the Belgian authorities decided to initiate the implementation of the personalised services to the affected workers on 1 April 2014, well ahead of the decision and even the application on granting the EGF support for the proposed coordinated package.

Nature of the redundancies: Members regretted that many of the unemployed persons in the Charleroi region are low skilled (59% do not have upper secondary education) and that 43% have been unemployed for more than 2 years. They also regretted that the employment rate in Charleroi is among the lowest in the Wallonia region at 52.26%. They stated that the redundancies at Caterpillar are expected to have huge negative impacts on the Charleroi region, which is facing a very difficult labour market situation due to its over-reliance on traditional industrial employment and lack of new industries. The report pointed out that the low qualification level of the workers made redundant makes it difficult for them to find a new job in an adverse economic context.

They noted that 18% of the targeted redundant workers expected to participate in the measures are threatened by labour market exclusion as they are part of the 55-64 age group.

A package of personalised services: Members noted that the coordinated package of personalised services to be co-funded covers three main

areas: redeployment, training and retraining and promotion of entrepreneurship.

They noted that more than half of the total estimated costs are to be spent on redeployment services, namely support, guidance and integration measures. They noted that these services will be provided by FOREM (the public employment and training service of the Walloon Region), which acts as an intermediary body in the implementation of this application.

They recalled the importance of improving the employability of all workers by means of adapted training and the recognition of skills and competences gained throughout a worker's professional career. They expected the training on offer in the coordinated package to be adapted not only to the needs of the dismissed workers but also to the actual business environment.

Lastly, they also stressed that EGF assistance can co-finance only active labour market measures which lead to durable, long-term employment.

## Mobilisation of the European Globalisation Adjustment Fund: redundancies in the manufacturing of machinery in Belgium

---

The European Parliament adopted by 551 votes to 76, with 16 abstentions, a resolution on the proposal for a decision of the European Parliament and of the Council on the mobilisation of the European Globalisation Adjustment Fund for an amount of EUR 1 222 854 in commitment and payment appropriations to assist Belgium affected by redundancies in the manufacturing of machinery sector.

Parliament recalled that the Union set up legislative and budgetary instruments to provide additional support to workers who are suffering from the consequences of major structural changes in world trade patterns and to assist their reintegration into the labour market.

Belgian application: Belgium submitted application EGF/2014/011 BE/Caterpillar for a financial contribution from the EGF, following 1030 redundancies in Caterpillar Belgium S.A. a company operating in the NACE 2 Division 28 'Manufacture of machinery and equipment n.e.c', with 630 persons expected to participate in the measures, during and after the reference period from 1 January 2014 to 30 April 2014, linked to a decline in demand in Europe. Members noted that the conditions set out in Article 4(1)(a) of the EGF Regulation are met.

Therefore, Belgium is entitled to a financial contribution under that Regulation.

Parliament welcomed the fact that, in order to provide workers with speedy assistance, the Belgian authorities decided to initiate the implementation of the personalised services to the affected workers on 1 April 2014, well ahead of the decision and even the application on granting the EGF support for the proposed coordinated package.

Nature of the redundancies: Parliament regretted that many of the unemployed persons in the Charleroi region are low skilled (59% do not have upper secondary education) and that 43% have been unemployed for more than 2 years. It also regretted that the employment rate in Charleroi is among the lowest in the Wallonia region at 52.26%. Members stated that the redundancies at Caterpillar are expected to have huge negative impacts on the Charleroi region, which is facing a very difficult labour market situation due to its over-reliance on traditional industrial employment and lack of new industries. The resolution pointed out that the low qualification level of the workers made redundant makes it difficult for them to find a new job in an adverse economic context. It noted that 18% of the targeted redundant workers expected to participate in the measures are threatened by labour market exclusion as they are part of the 55-64 age group.

Parliament advocated the future use of the provisions of the EGF Regulation to support young people not in employment, education or training (NEETs) in this region.

A package of personalised services: Parliament noted that the coordinated package of personalised services to be co-funded covers three main areas: redeployment, training and retraining and promotion of entrepreneurship. It noted that more than half of the total estimated costs are to be spent on redeployment services, namely support, guidance and integration measures. Members stated that these services will be provided by FOREM (the public employment and training service of the Walloon Region), which acts as an intermediary body in the implementation of this application.

It recalled the importance of improving the employability of all workers by means of adapted training and the recognition of skills and competences gained throughout a worker's professional career and expected the training on offer in the coordinated package to be adapted not only to the needs of the dismissed workers but also to the actual business environment.

Members also stressed that EGF assistance can co-finance only active labour market measures which lead to durable, long-term employment.

Lastly, Parliament welcomed that financial support from the European Social Fund was in the past awarded to a project (En Train - En Transition-Reconversion-Accompagnement) which aimed to develop pedagogical methods for Redeployment Units in general and that the findings of this project are likely to prove useful in the implementation of the planned measures.

## Mobilisation of the European Globalisation Adjustment Fund: redundancies in the manufacturing of machinery in Belgium

---

**PURPOSE:** to mobilise the European Globalisation Adjustment Fund (EGF) to assist Belgium following redundancies in the sector of machinery manufacturing.

**NON-LEGISLATIVE ACT:** Decision (EU) 2015/471 of the European Parliament and of the Council on the mobilisation of the European Globalisation Adjustment Fund (application EGF/2014/011 BE/Caterpillar, from Belgium).

**CONTENT:** with this Decision, the European Parliament and the Council have decided to mobilise the sum of EUR 1 222 854 in commitment and payment appropriations from European Globalisation Adjustment Fund within the framework of the general budget of the European Union for the financial year 2015.

This amount shall assist Belgium in respect of redundancies in Caterpillar Belgium S.A.

Given that the Belgian application fulfils the conditions laid down in [Regulation \(EU\) No 1309/2013](#) (EGF Regulation 2014-2020), the European Parliament and the Council decided to grant the abovementioned amount.

To recall, the European Globalisation Adjustment Fund was established to provide support for workers made redundant and self-employed persons whose activity has ceased as a result of major structural changes in world trade patterns due to globalisation, as a result of a continuation of the global financial and economic crisis addressed in [Regulation \(EC\) No 546/2009](#) of the European Parliament and of the Council, or as a result of a new global financial and economic crisis and to assist them with their reintegration into the labour market.

[Regulation](#) (EU, Euratom) No 1311/2013 laying down the multiannual financial framework for the years 2014-2020 provides that the EGF shall not exceed a maximum annual amount of EUR 150 million.

ENTRY INTO FORCE: 11.03.2015.
