Fiscalis programme for cooperation in the field of taxation 2021-2027

PURPOSE: to establish the fiscalis programme for cooperation in the field of taxation for the period 2021-2027.

PROPOSED ACT: Regulation of the European Parliament and of the Council.

ROLE OF THE EUROPEAN PARLIAMENT: the European Parliament decides in accordance with the ordinary legislative procedure and on an equal footing with the Council.

BACKGROUND: the [fiscalis 2020](#) programme and its predecessors have significantly contributed to facilitating and enhancing cooperation between tax authorities within the Union. The added value of those programmes, including as regards the protection of the financial and economic interests of Member States of the Union and of taxpayers, has been recognised by the tax authorities of the participating countries.

The Union and the national tax authorities still suffer from insufficient capacity and insufficient cooperation both within the EU and with third countries to carry out effectively and efficiently their missions. They need to provide quick and joint responses to emerging problems such as tax fraud, tax evasion and tax avoidance, digitalisation and new business models, while at the same time preventing unnecessary administrative burden for citizens and businesses in cross-border transactions.

Therefore, the Commission is proposing a new fiscalis programme under the Single Market, Innovation and Digital budget heading. It shall comprise means and a budget which shall support tax policy and tax authorities through administrative and IT capacity building activities and operational cooperation.

CONTENT: the proposal for a Regulation - presented for a Union of 27 Member States - seeks to establish the fiscalis programme for cooperation in the field of taxation for the period 2021-2027, which will succeed the Fiscalis 2020 programme.

Objective: the programme has the general objective to support tax authorities and taxation to enhance the functioning of the single market, foster Union competitiveness and protect the financial and economic interests of the Union and its Member States. It supports tax policy, tax cooperation and administrative capacity building, including human competency and the development and operation of the European electronic systems.

The programme shall be open to participation by Member States, acceding, candidate and potential candidate countries. The implementation of the programme will occur through the most commonly used spending mechanisms of Union budget, namely public procurement and grants.

Eligible actions: the proposed Regulation provides mechanisms, means as well as the necessary funding aiming to support tax policy and to improve cooperation between tax authorities. The proposed measure comprises inter alia meetings and similar ad-hoc events, project-based structured collaboration and human competency and capacity building actions, in which Member States and their officials may participate on a voluntary basis.

IT capacity: the proposal provides an improved framework and governance for the IT capacity building actions carried out under the programme. An improved definition of common components and national components reflecting better the reality of IT projects and their features has been integrated. The tasks incumbent on the Commission on the one hand, and the Member States on the other hand, have been listed

A multi-annual strategic plan for taxation to be drawn up by the Commission, in partnership with the Member States, shall allow for a better planning of budgetary and human resources both at national and EU level. The Commission and the Member States shall ensure jointly the development and operation, including the design, specification, conformance testing, deployment, maintenance, evolution, security, quality assurance and quality control, of the European electronic systems listed in the multi-annual strategic plan for taxation.

Proposed budget: under the [proposed](#) new multiannual financial framework, the programme shall have an overall budget of EUR 270 million (in current prices) for the period 2021-2027. The vast majority of the proposed budget will be spent on IT capacity building activities.

Fiscalis programme for cooperation in the field of taxation 2021-2027

The Committee on Economic and Monetary Affairs adopted the report by Sven GIEGOLD (Greens/EFA, DE) on the proposal for a regulation of the European Parliament and of the Council establishing the Fiscalis programme for cooperation in the field of taxation.

The committee recommended that the European Parliament's position adopted at first reading under the ordinary legislative procedure should amend the Commission's proposal as follows.

Objectives: the general objectives of the programme of supporting tax authorities and taxation with a view to (i) improving the functioning of the single market, (ii) fostering fair competition within the Union, (iii) protecting the financial and economic interests of the Union and its Member States, including against tax fraud, tax evasion and aggressive tax planning, and improving tax collection.

Its specific objectives would be to support tax policy and its proper implementation, and to encourage tax cooperation, exchange of tax information, strengthening of administrative capacity building, including human skills, and the development and operation of European electronic systems, as well as the progressive modernisation of reporting, auditing and software tools to be applied uniformly across Member States.

The Programme shall also help tax administrations to facilitate and improve the implementation of the Union directives on taxation, and to train their staff in that regard.

Budget: Members proposed that the financial envelope for the implementation of the programme over the period 2021-2027 should be set at EUR 300 million at 2018 prices (or EUR 339 million in current prices).

Third countries associated with the programme: provided priority topics have been fully funded, least developed countries shall be encouraged

to participate in the Programme. The participation of least developed countries in the Programme shall be cost-free for them and shall focus on achieving international tax objectives, such as the automatic exchange of tax information.

Eligible actions: the priority topics shall be as follows: (i) closing loopholes in the effective implementation of [Council Directive 2011/16/EU](#), as amended; (ii) effective exchange of information and development of useable formats taking into account international initiatives; (iii) removing obstacles to cross-border cooperation; (iv) removing obstacles to accessibility to beneficial owners; (v) combating cross-border VAT fraud; (vi) exchange of best practices in the recovery of taxes, including unpaid taxes; (vii) implementation of unified national IT tools for the development of common interfaces to allow for the interconnection of national IT system.

Participation of external experts: the external experts shall be selected by the Commission, following a transparent and balanced procedure, based on their skills, experience and knowledge relevant to the specific action, and their ability to contribute to that action. The impartiality of these experts and the absence of any potential conflict of interest with their professional functions should be guaranteed. The list of external experts shall be made available to the public on the Commission's website.

Multi-annual work programmes: these shall include all relevant information produced in the context of annual reports or mapping exercises as referred to in this Regulation. Those annual reports shall be made publicly available in order to inform taxpayers about best practices, lessons learnt, challenges and remaining obstacles identified within the Programme.

Synergies: for the sake of cost-effectiveness, the Fiscalis Programme shall exploit possible synergies with other Union measures in related fields, such as the Customs Programme, the EU Anti-Fraud Programme, the Single Market Programme and the Reform Support Programme.
