2017 discharge: European Securities and Markets Authority (ESMA)

PURPOSE: presentation by the Commission of the consolidated annual accounts of the European Union for the financial year 2017, as part of the 2017 discharge procedure.

Analysis of the accounts of the European Securities and Markets Authority (ESMA).

CONTENT: the organisational governance of the EU consists of institutions, agencies and other EU bodies whose expenditure is included in the general budget of the Union.

This Commission document concerns the EU's consolidated accounts for the year 2017 and details how spending by the EU institutions and bodies was carried out. The consolidated annual accounts of the EU provide financial information on the activities of the institutions, agencies and other bodies of the EU from an accrual accounting and budgetary perspective.

It is the responsibility of the Commission's Accounting Officer to prepare the EU's consolidated annual accounts and ensure that they present fairly, in all material aspects, the financial position, the result of the operations and the cash flows of the EU institutions and bodies with a view to granting discharge.

Discharge procedure: the final step of a budget lifecycle is the discharge. It is the decision by which the European Parliament releases the

Commission from its responsibility for management of a given budget by marking the end of that budget's existence. It is granted by the European Parliament on the recommendation of the Council.

The decision is based in particular on the European Court of Auditors reports, in particular its annual report, in which the Court provides a Statement of Assurance (DAS) on the legality and regularity of transactions (payments and commitments).

The procedure results in the granting, postponement or refusal of discharge.

The final discharge report including specific recommendations to the Commission for action is adopted in plenary by the European Parliament and are subject to an annual follow up report in which the Commission outlines the concrete actions it has taken to implement the recommendations made.

All EU institutions and other agencies, bodies and joint undertakings are subject to their own discharge procedures.

The European Securities and Markets Authority (ESMA): the Authority, which is located in Paris (FR), was set up by [Regulation \(EU\) No 1095/2010](#) of the European Parliament and of the Council with a view to protecting the public interest by contributing to the short, medium and long-term stability and efficiency of the financial system for the economy of the European Union.

As regards the ESMA's accounts, these are presented in detail in the document on the consolidated annual accounts of the European Union for 2017:

Commitment appropriations:

- available: EUR 46 million;
- made: EUR 45 million.

Payment appropriations:

- available: EUR 50 million;
- paid: EUR 44 million.

For further details on expenditure, please refer to the [final accounts of the Securities and Market Authority](#).

2017 discharge: European Securities and Markets Authority (ESMA)

Having examined the revenue and expenditure accounts for the financial year 2017 and the balance sheet as at 31 December 2017 of the European Securities and Markets Authority (ESMA), as well as the Court of Auditors' report on the annual accounts of the Authority for the financial year 2017, accompanied by the Authority's replies to the Court's observations, the Council recommended the European Parliament to give a discharge to the Executive Director of the Agency in respect of the implementation of the budget for the financial year 2017.

Nevertheless, the following observations were made:

- Brexit: the Council encouraged the Authority to take into account any possible financial impact of the withdrawal of the United Kingdom from the EU on its organisation, operations and accounts;
- staff: the Authority is encouraged to ensure proper transparency and publicity of its vacancy notices, while avoiding unjustified costs.

2017 discharge: European Securities and Markets Authority (ESMA)

The Committee on Budgetary Control adopted the report by Petri SARVAMAA (EPP, FI) on discharge in respect of the implementation of the budget of the European Securities and Markets Authority (ESMA) for the financial year 2017.

The committee called on the European Parliament to grant the Executive Director of the Authority discharge in respect of the implementation of the Authority's budget for the financial year 2017.

Noting that the Court of Auditors stated that it had obtained reasonable assurance that the annual accounts of the Authority for the financial year 2017 were reliable and that the underlying transactions were legal and regular, Members called on Parliament to approve the closure of the Authority's accounts.

They made, however, a number of recommendations that needed to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#):

Agencies financial statements

Members noted that the final budget of the Authority for the financial year 2017 was EUR 42 076 719, representing an increase of 6.37 % compared to 2016. The Authority is financed by a contribution from the Union (EUR 11 019 552), contributions from national supervisory authorities of the Member States (EUR 18 584 866) and fees received from supervised entities (EUR 11 831 781).

Budget and financial management

The budget monitoring efforts during the financial year 2017 resulted in a budget implementation rate of 100 %, representing an increase of 0.03 % compared to 2016. Payment appropriations execution rate was at 89.76 %, representing an increase of 2.47 % compared to the previous year.

The cancellation of carry-overs from 2016 to 2017 amounted to EUR 164 310, representing 3.51 % of the total amount carried over, and a decrease of 3.65 % in comparison to 2016.

Members also made a series of observations regarding performance, staff policy, procurement and conflicts of interest.

In particular, they noted that:

- the Authority completed 90 % of the activities included in its annual work programme;
- as the Authority's workload is increasingly shifting from regulatory tasks to enforcing and applying the Union law, the Authority's budgetary and personnel resources should be reallocated;
- sufficient resources should be allocated to address existing anti-money laundering competences and to ensure a swift exchange EBA regarding money laundering and countering the financing of terrorism. A common guidance should be developed in exchange with EBA and the European Insurance and Occupational Pensions Authority (EIOPA) on how to integrate AML/CFT risks in prudential supervision;
- on 31 December 2017, the establishment plan was 97.33 % executed, with 146 temporary agents appointed out of 150 temporary agents authorised under the Union budget;
- 28 % of the Authority's budget came from fees charged to the entities it supervises. Members are pleased that measures have been implemented in order to mitigate any conflicts of interests, and that those structures and processes have been audited;
- when drafting implementing measures, the Authority needs to regularly and comprehensively inform the European Parliament and Council about its activities;
- the United Kingdom's decision to withdraw from the European Union might affect the Authority's activities since the most significant supervised entities are currently located there. A future decrease of the Authority's revenue resulting from the United Kingdom's decision to withdraw from the European Union is possible.

2017 discharge: European Securities and Markets Authority (ESMA)

The European Parliament decided to grant discharge to the Executive Director of the European Securities and Markets Authority (ESMA) for the financial year 2017 and to approve the closure of the accounts for the financial year in question.

Noting that the Court of Auditors has stated that it has obtained reasonable assurances that the Authority's annual accounts for the financial year 2017 are reliable and that the underlying transactions are legal and regular, Parliament adopted by 488 votes to 116 with 23 abstentions, a resolution containing a series of recommendations, which form an integral part of the decision on discharge and which add to the general recommendations set out in the [draft resolution on performance, financial management and control of EU agencies](#):
