Financial Regulation of 21.12.1977, EC budget: fines, financial controller, recovery of debts

The proposal for a regulation was concerned with a number of technical points designed to allow improvements to the conditions for budget implementation, in particular with regard to the requirements of scrutiny and account-keeping. The proposal sought to: - enhance the role of the financial controller; - specify in more detail the various stages of budgetary implementation as regards debts; - make provision for appropriate accounting and budgetary treatment of fines; - improve the operation of imprest accounts; - allow appropriate additional time for settling a number of accounting transactions after the end of the financial year; - extend the scope of measures relating to the management of appropriations for personnel and for the administrative functioning of offices and suboffices in the Community. ?

Financial Regulation of 21.12.1977, EC budget: fines, financial controller, recovery of debts

Adopting the report by Mr SÄRLIS (PPE, EL), the European Parliament approved the proposal subject to certain amendments concerning fines. The European Parliament also recommended that: - the relevant authorizing officer issue a debt confirmation and recovery order for all confirmed debts, to be sent for prior approval to the financial controller (debts recorded by the accountant); - certain current receipts be subject to provisional proposed declarations and to approval by the financial controller both before they are confirmed and when the accounts are closed; - the balance each financial year between fines collected and fines refunded be entered under income or expenditure in the following year's budget, depending on whether there is a positive or negative balance.?

Financial Regulation of 21.12.1977, EC budget: fines, financial controller, recovery of debts

The Commission's amended proposal incorporates most of the European Parliament's amendments, with the exception of those relating to fines. In order to guarantee the greatest possible transparency in this area, the Commission has supplemented the new Article 28 (a) of the regulation with a series of items of information on fines which will be reported in the management account. This account will need to show the Commission's decisions in this area, together with the date of notification and a summary table showing: - the amounts charged; - fines paid definitively (i.e. not subject to appeal); - sums subject to appeal, broken down as follows: . fines not paid but covered by a bank guarantee, . fines paid pending a ruling by the Court of Justice.?
