Final act

[Directive 1995/69](#)
[OJ L 332 30.12.1995, p. 0015](#) Summary

Animal feed (amend. Direct. 70/524/EEC and 74/63/EEC)

This proposal formed part of the establishment of the Community registration system for producers of animal feedingstuffs and their representatives. At that time, several directives laid down minimum conditions which had to be satisfied by producers of additives, pre-mixtures and compound feedingstuffs (for example Directives 70/524/EEC concerning additives in feedingstuffs and 74/63/EEC on undesirable substances and products in feedingstuffs, which reserved the use and manipulation of certain materials and products only for persons with competences, installations and equipment deemed to be essential with a view to general safety). In the light of experience gained, it was proposed: - to ensure legal clarity and to improve transparency by codifying the conditions and procedures applicable to the accreditation of the establishments in question; - to update and supplement the criteria which had to be satisfied by producers, intermediaries and any representatives; - to adjust Directives 70/524/EEC and 74/63/EEC in accordance with the provisions of the present draft. ?

Animal feed (amend. Direct. 70/524/EEC and 74/63/EEC)

The committee approved the report by Mr Franco BORGIO under the simplified procedure (Rule 143(2)). The Committee on Agriculture approved the Commission proposal.

Animal feed (amend. Direct. 70/524/EEC and 74/63/EEC)

The European Parliament adopted the report by Mr BORGIO approving the Commission proposal without debate. ?

Animal feed (amend. Direct. 70/524/EEC and 74/63/EEC)

\$summary.text

Animal feed (amend. Direct. 70/524/EEC and 74/63/EEC)

OBJECTIVE : to safeguard public health by ensuring, through the reinforcement of control measures, that animal feedstuffs are safe. COMMUNITY MEASURE: Council Directive 95/69/EC establishing the terms and conditions which apply for the approval of certain establishments and intermediaries in the animal feedstuffs sector, these amending Directives 70/524/EEC, 74/63/EEC, 79/373/EEC and 82/471/EEC. SUBSTANCE : the directive seeks to update and extend the criteria which have to be met by producers, their staff and their installations in order to ensure that proper safety standards are met in the handling and use of the substances (raw materials, pre-mixtures and additives, with the exception of veterinary medicines which come under the current regulations) and products concerned. The text provides for: - an approval procedure for establishments using certain substances for which a high level of control has proved to be necessary, - a simple registration system for those who only use substances which are considered to be less of a risk. The directive also covers establishments which produce pet food. Member States are to be responsible for administering the procedures for the granting and withdrawal of the said

accreditations and are to ensure that the requirements of the directive are met. Prior to 01/04/1997 the Council will determine: - the fees to be charged for the accreditation of establishments and intermediaries, - the practical details for the granting of accreditation and for the registration of third-country establishments. DATE OF ENTRY INTO FORCE: 19/01/1996. DEADLINE FOR TRANSPOSITION: 01/01/1998. ?
