Dangerous substances: classification, packaging and labelling

The aim of the Commission proposal was the legislative consolidation of Council Directive 67/548/EEC on the classification, packaging and labelling of dangerous substances. The new directive was to replace the various directives covered by this consolidation process. Directive 67/548/EEC, which also prescribed the notification procedures for all new chemical substances that were put on the Community market, was the basis of the risk-prevention policy for man and the environment as defined in the Fifth Environmental Action Programme. The implementation of the directive was a prerequisite for the proper management of the risks posed by chemical substances. The consolidation in a single text of all the existing provisions should save time and administrative costs for professional users and administrative bodies. ?

Dangerous substances: classification, packaging and labelling

The Committee on the Environment decided to approve the Commission proposal by availing itself of the procedure provided for in Rule 143(1) of the Rules of Procedure of the European Parliament (procedure without report). ?

Dangerous substances: classification, packaging and labelling

The European Parliament approved the Commission proposal according to the procedure laid down in Rule 143(1) of its Rules of Procedure (procedure without report). ?

Dangerous substances: classification, packaging and labelling

The Committee on Legal Affairs approved the Commission's proposal in accordance with the procedure laid down in Article 143(1) of Parliament's Rules of Procedure (procedure without report). ?

Dangerous substances: classification, packaging and labelling

Parliament approved the proposal for a directive. ?

Dangerous substances: classification, packaging and labelling

The European Parliament confirmed as its first reading the text voted on 15.02.1995 on the proposal for a Directive on the classification, packaging and labelling of dangerous substances the number of the legal base of which changed with the entry into force of the Amsterdam Treaty.?

Dangerous substances: classification, packaging and labelling

The Directorates General or responsible departments have asked for this proposal to be withdrawn. The reasons are indicated as follows: A) for objective reasons (change of de facto situation, objectives already achieved by other means, etc) B) because the Commission has now adopted another approach : - the proposal is replaced implicitly, - a new proposal is in preparation, - no planned replacement.?

Dangerous substances: classification, packaging and labelling

As announced in Official Journal C 5 of 9 January 2004, the Commission decided to withdraw this proposal, which had become obsolete.
