Final act

Directive 1996/73 OJ L 032 03.02.1997, p. 0001 Summary

Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures (consolidation)

The aim of this Commission proposal was the legislative consolidation of Directive 72/276/EEC on the approximation of the laws of the Member States relating to certain methods for the quantitative analysis of binary textile fibre mixtures. The new directive was to replace the various directives which were the subject of this consolidation process and would be confined to a compilation of the provisions contained in those instruments, together with the formal amendments required by the consolidation process. ?

Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures (consolidation)

\$summary.text

Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures

(consolidation)

The Committee on Legal Affairs approved the Commission proposal using the procedure under Rule 143 paragraph 1 of Parliament's Rules of Procedure (procedure without report).?

**Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures
(consolidation)**

The European Parliament approved the proposal for a directive.?

**Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures
(consolidation)**

Since this is purely and simply a matter of codifying the existing texts on certain methods for the quantitative analysis of binary textile fibre mixtures, the Council common position makes no substantive changes to the Commission proposal. The codification entails a change in the legal base from Article 100 TEU to Article 100a. ?

**Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures
(consolidation)**

The common position is in line with the Commission proposal. The corrections made were purely technical and of no political value. The Commission fully supports the common position.?

**Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures
(consolidation)**

Parliament approved the common position. The Council was urged in line with its common position, to adopt the act definitively as soon as possible. ?

**Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures
(consolidation)**

The Council formally adopted the Directive.

**Textile industry, clothing: methods for the quantitative analysis of binary textile fibre mixtures
(consolidation)**

OBJECTIVE: to codify, with a view to greater clarity and logic, Council Directive 72/276/EEC on the approximation of the Member States' laws on certain methods for the quantitative analysis of binary textile fibre mixtures, a directive which has been substantially amended on several occasions. COMMUNITY MEASURE: European Parliament and Council Directive 96/73/EC. SUBSTANCE: the new directive replaces the various directives which were the subject of the codification operation; it makes no changes at all to the codified texts, restricting itself to reorganizing them and making the formal changes required by the codification operation. ENTRY INTO FORCE: 23/02/97?
