Agricultural prices 1994/1995: oils and fats, common organisation of the markets COM

1994/95 AGRICULTURAL PRICES: Pending the new COM in wine, it was proposed to defer for the 1994/95 marketing year certain deadlines introduced by regulation relating to: - the submission of reports on the definition of winegrowing areas, fortification, and the link between structural measures and compulsory distillation (study to be presented to the Council); - the definition of rules for calculating the quantities to be distilled for each production region (standard percentage and reference year), accepted following the Dublin compromise but postponed until 31 August 1994 along with the derogation granted for the special application of the compulsory distillation scheme in Greece; - the definition of the trial period for certain deacidification practices approaching expiry; - the definition of the period when part of the aid for using grape must to produce juice might be earmarked for promoting grape juice, already extended the previous year to 31 August 1994.?
