

# Statistics relating to trading of goods between Member States, Intrastat: Commission delegated and implementing powers

2013/0278(COD) - 08/08/2013 - Legislative proposal

**PURPOSE:** to align Regulation (EC) No 638/2004 of the European Parliament and the Council on Community statistics relating to trading of goods between Member States and repealing Council Regulation (EEC) No 3330/91, to new rules under the Treaty on the Functioning of the European Union (delegated and implementing powers of the Commission).

**PROPOSED ACT:** Regulation of the European Parliament and of the Council.

**ROLE OF THE EUROPEAN PARLIAMENT:** the European Parliament decides in accordance with the ordinary legislative procedure and on an equal footing with the Council.

**BACKGROUND:** the Treaty on the Functioning of the European Union (TFEU) makes a distinction between:

- powers which may be delegated to the Commission to adopt non-legislative acts of general application to supplement or amend certain non-essential elements of a particular legislative act, as laid down in Article 290(1) of the TFEU (delegated acts), and
- the implementing powers which shall be conferred on the Commission where uniform conditions for implementing legally binding Union acts are needed, as laid down in Article 291(2) of the TFEU (implementing acts).

In connection with the adoption of Regulation (EU) No 182/2011 of the European Parliament and of the Council laying down the rules and general principles concerning mechanisms for control by Member States of the Commissions exercise of implementing powers, the Commission has committed itself to reviewing, in the light of the criteria laid down in the TFEU, legislative acts which currently contain references to the regulatory procedure with scrutiny (previously known as comitology).

The overall objective is to remove all provisions referring to the regulatory procedure with scrutiny from all legislative instruments by the end of Parliaments seventh term (June 2014).

**IMPACT ASSESSMENT:** the Commission did not undertake an impact assessment.

**LEGAL BASIS:** Article 338(1) of the Treaty on the Functioning of the European Union (TFEU).

**CONTENT:** the proposal seeks to amend Regulation (EC) No 471/2009 in order to align it with the new institutional context.

It is proposed to:

- empower the Commission to adopt delegated acts in order to provide a satisfactory response to users' needs for statistical information without imposing excessive burdens on economic operators, to take into account changes necessary for methodological reasons and the necessity to set up an efficient system for the collection of data and the compilation of statistics;
- confer implementing powers on the Commission enabling it to adopt measures in accordance with the examination procedure laid down in Article 5 of Regulation (EU) No 182/2011, the arrangements for collecting Intrastat information, particularly concerning the codes to be used, technical provisions for compiling annual statistics on trade by business characteristics and any measures necessary to ensure the quality of the statistics transmitted according to the quality criteria.

The Commission is also proposing to:

- clarify the definition of statistical value and align the current definition of this data element in intra-EU trade statistics with that of the extra-EU trade statistics;
- restructure the European Statistical System (ESS) to improve coordination and partnership in a clear pyramid structure, with the European Statistical System Committee (ESSC) as the highest strategic body. One aspect of this streamlining is to concentrate comitology powers in the hands of the ESSC. In February 2012, the ESSC supported this new approach.

**BUDGETARY IMPLICATION:** the proposal has no implications for the Unions General Budget.
